

Correctional Industries
State Manufactured Goods

Description:

Correctional Industries' purpose is to provide meaningful work opportunities to offenders which teach job keeping skills in order to reduce idle time, contribute to effective inmate management, and assist with offender transition back into society.

Major Functions and Targeted Performance Standard(s) for Each Function:

1. Employ inmates in prison industries.
 - A. Number of inmates employed.

Actual Results			
1996	1997	1998	1999
270	276	304	413
Projected Results			
2000	2001	2002	2003
370	390	410	430

2. Maintain financial independence.
 - A. Net profit.

Actual Results			
1996	1997	1998	1999
\$7,206	\$259,564	\$652,000	\$181,336
Projected Results			
2000	2001	2002	2003
\$15,000	\$25,000	\$40,000	\$50,000

- B. Change in ending cash balance from operations excluding investing and financing activities.

Actual Results			
1996	1997	1998	1999
(\$256,792)	\$477,205	\$204,240	\$879,284
Projected Results			
2000	2001	2002	2003
\$150,000	\$150,000	\$150,000	\$150,000

Program Results and Effect:

Correctional Industries continues to produce and market quality cost-effective products and services which raise sufficient revenues for our division to operate and expand as required without the use of taxpayer funds.

CI's programs contribute to effective management of inmates during their incarceration and assists with their transition back into society.
