

Idaho General Fund Revenue

History and Projections

The following pages provide descriptions of the sources of General Fund revenue, historical rate and distribution formula information, historical revenue collection and distribution information, and a brief explanation of the basis of the forecast for each source of revenue that contributes to the General Fund.

Three primary revenue categories (individual income tax, corporate income tax, and sales tax) presently account for about 95% of General Fund revenue as of fiscal year (FY) 2008. These sources of revenue are forecast using a combination of econometric methods and judgment. The econometric method is multiple regression, using variables contained in the Idaho Economic Model (IEM). Exogenous forecast data are obtained from the January 2009 *Idaho Economic Forecast*. Both are products of the Division of Financial Management. The judgmental factors considered include the effects of rate changes, other law changes, judicial decisions, and knowledge not reflected in the econometric analysis.

Product taxes and miscellaneous revenue sources are forecast using collections history, trend analysis, law changes, receipts to date, and a broad array of contacts with individuals responsible for or otherwise involved with the collection of each revenue category. The largest miscellaneous revenue category, Insurance Premium Tax, is forecast in cooperation with the staff of the Department of Insurance, using simulation models to account for relevant variables and parameters that affect the cash flow into the General Fund.

INDIVIDUAL INCOME TAX

Idaho taxable income is derived from federal adjusted gross income (AGI). For Idaho residents, income from all states is taxable in Idaho, with credit provided for taxes paid to other states. For non-residents, only income earned in Idaho is subjected to Idaho income tax. For part-year residents, income from all states is taxable during the period of Idaho residency, while only income earned in Idaho is subjected to Idaho income tax during the period of non-residency.

Although Idaho conforms to most of the federal income tax provisions for determining taxable income, a number of differences exist. Idaho's definition of taxable income excludes 100% of social security income, 60% of certain capital gains, and 100% of interest earned on U.S. government securities. For a complete delineation of Idaho's income tax structure, refer to the tax structure section of this publication.

Idaho also provides a number of credits that are not included in the federal tax code. These include an investment tax credit, credit for contributions to educational entities, and several credits linked to investments in broadband equipment, research activities, and job creation. Again, for a complete delineation of Idaho's income tax structure, refer to the tax structure section of this publication.

Idaho income derived from wages and salaries is subject to payroll withholding. Idaho does not require estimated payments for individual income tax, so tax payments derived from business income and most investment income are paid when the tax return is due (typically April 15th following the end of the tax year). A number of Idaho taxpayers make voluntary estimated payments at the end of the tax year (typically December 31st) in order to claim the payment on the same year's federal income tax return.

Since the enactment of Idaho's income tax in 1931, all net tax liability, interest, and penalties have been distributed to the General Fund. Beginning in FY 2001, withholding collections on Idaho lottery winnings are distributed to public schools and counties. An amount equal to 20% of the individual income taxes collected by the State Tax Commission and deposited with the State Treasurer is required by statute to be deposited in the State Income Tax Refund Fund. Any balance exceeding \$1,500,000 in the State Income Tax Refund Fund at the end of the fiscal year is transferred to the General Fund on June 30th.

A separate filing tax of \$10 per income tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961 when their distribution was changed to the Permanent Building Fund. The income tax return form includes a variety of other "check offs" that can be used by the taxpayer to donate various amounts (usually from refunds) to special funds such as non-game wildlife, drug enforcement, etc.

Basis of Projection:

The projections of General Fund revenue from the individual income tax for FY 2009 and FY 2010 are based on a combination of econometric analysis and judgment.

The analysis begins with the Idaho Economic Model (IEM), an econometric base model of Idaho's economy that is used to derive employment by industry and income by type. Idaho income data is then used to correlate historical net withholding collections (gross withholding collections less refunds) to Idaho wage and salary payments. Filing collections are estimated using a national equity market index and Idaho personal income as the explanatory variables.

The econometric-based forecast of net withholding collections and filing collections are then adjusted to reflect: a) new features of the tax law that are expected to impact future collections and accruals, and b) effects of other factors that are expected to have impacts not reflected in the econometric analysis.

The forecast that follows assumes no further change in current Idaho income tax law, a standard practice of the Division's revenue forecasts.

CORPORATE INCOME TAX

Description: (Title 63, Chapter 30, *Idaho Code*)

Collections from the corporate income tax are currently based on a flat rate of 7.6% applied to taxable income. For a listing of earlier rates refer to the following table. Beginning with tax year 1987, Idaho conformed to the changes made by the Tax Reform Act of 1986, except for the federal investment tax credit repeal. Idaho continues to allow a 3% credit that is tied to the federal definition of eligible property. For tax year 2001, an additional “incentive” investment tax credit was allowed in low income/high unemployment counties. Extra credits are also allowed for investments in broadband equipment, research activities, and job creation. See the tax structure section of this publication for details. Also, since September 1987, Idaho has required that corporations file quarterly payments of estimated taxes. This provision is based upon federal rules and was phased in over a two-year period.

Since its enactment in 1931, all net tax liability, interest, and penalties associated with the corporate income tax have been distributed to the General Fund. An amount equal to 20% of the corporate income taxes collected by the State Tax Commission and deposited with the State Treasurer is required by statute to be deposited in the State Income Tax Refund Fund. Any balance exceeding \$1,500,000 in the State Income Tax Refund Fund at the end of the year is transferred to the General Fund on June 30th. An additional filing tax of \$10 per tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961, when their distribution was changed to the Permanent Building Fund.

Basis of Projection:

Projections of the General Fund revenue from the corporate income tax are based on a combination of econometric analysis and judgment. Historical corporate income tax collections are correlated with income concepts found in the IEM and Global Insight's *U.S. Economic Outlook*.

SALES TAX

Description: (Title 63, Chapter 36, *Idaho Code*)

Idaho's sales tax rate was 5% from April 1986 to April 2003. The sales tax rate was raised to 6% in May 2003 and remained at that level through FY 2004 and FY 2005. The sales tax rate returned to 5% on July 1, 2005. The rate was increased to 6% on October 1, 2006. Beginning in FY 2005, the Agricultural Equipment Property Tax Exemption is funded by the sales tax. Beginning in FY 2008, payments into the Demonstration Pilot Project Fund are made from sales tax refunds. The rate and distribution history is shown on the following table.

1. Amount equal to one mill of all assessed property values distributed to Teachers Retirement System; \$1,000,000 lump sum (one-time) distribution to Tax Commission.
2. Amount equal to the sum required to be certified by the state controller distributed to the Social Security Trust Fund.
3. Amount equal to the sum required to be certified by the Idaho housing agency.
4. \$1.00 per registration fee on vehicle registration transfers that do not involve sales tax.
5. Amount certified by the Tax Commission as necessary to fund the Circuit Breaker.
6. Amount necessary to fund Property Tax Relief.
7. For the period March 1983 through June 1984 this percentage was applied only to the 3% "base" sales tax rate. Beginning in 2000, this allocation was "folded into" the revenue sharing allocation.

Sales tax funds must be allocated to the Idaho Housing and Finance Association if, within 60 days of the close of the fiscal year, the Chairman of the Housing and Finance Association Board of Commissioners certifies to the State Tax Commission that a deficiency exists in the agency's Capital Reserve Fund. No such certification has been made in any year, nor is one anticipated for the current fiscal year. Beginning in 1996, this provision is limited to no more than \$89 million. Also, it only applies to bonds issued prior to 1996. In effect, this provision has been repealed for bonds issued on or after January 1996.

Basis of Projection:

The projections of FY 2009 and FY 2010 net General Fund accruals from the sales tax are based on econometric analysis and judgment. Historic monthly gross collections data are first adjusted for changes in the tax rate and any major collection anomalies. Income forecasts from the *Idaho Economic Forecast* are then used to forecast gross sales tax collections. Historical refund levels and the current distribution formula are used to translate gross collections to net General Fund accruals. Judgmental considerations include the results of ongoing revenue monitoring.

CIGARETTE TAX

Description: (Title 63, Chapter 25, *Idaho Code*)

The cigarette tax rate is 57 cents per pack of 20 cigarettes. The Public School Income Fund (PSIF) and Department of Juvenile Corrections each both receive 5.1746 cents per pack. The remaining amount per pack is distributed as follows: the Permanent Building Fund receives 17.3%; the Central Tumor Registry Fund receives 0.4% (to a maximum of the legislative appropriation); the Cancer Control Fund receives 1%; the General Fund receives an amount equal to the appropriation for the Bond Levy Equalization Program. All remaining revenues flow to the Permanent Building Fund to be used to repair, remodel, and restore the Capitol and related facilities. After these projects are completed, all remaining revenues are redirected to the Economic Recovery Reserve Fund.

WINE TAX

Description: (Title 23, Chapter 13, *Idaho Code*)

A tax of \$0.45 per gallon is levied on wine (and beer containing more than 4% alcohol by weight) sold in Idaho. Of the total wine tax, 12% is distributed to the Substance Abuse Treatment Fund, 5% to the Idaho Grape Growers and Wine Producers Commission Fund, and the remainder (83%) to the General Fund. Historical rates of the tax and its distribution are listed in the table below.

WINE TAX RATE HISTORY AND DISTRIBUTION MECHANISM

Effective Date	Rate Per Gallon	State of Origin	Distribution Mechanism

Jul-2007	\$0.45	All	83% to GF; 12% to Substance Abuse Treatment Fund (SATF); 5% to Idaho Grape Growers & Wine Producers Commission Fund.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2009 and FY 2010 are based on a subjective assessment of recent collection history, the trend toward lower wine consumption per capita, the rising popularity of microbrewery beers, and Idaho population growth.

KILOWATT-HOUR TAX

Description: (Title 63, Chapter 27, *Idaho Code*)

Revenue is derived from a one-half mill (\$0.0005) per kilowatt-hour tax on hydro-generated electricity in Idaho. Power used by industrial consumers and for irrigation is exempt from this tax. All collections accrue to the General Fund. This tax has been levied since July 1, 1931.

Basis of Projection:

Kilowatt-hour tax receipts for FY 2009 and FY 2010 are based on an assessment of recent collection history in comparison to river flows, water availability, and changes in power generation capacity.

MINE LICENSE TAX

Description: (Title 47, Chapter 12, *Idaho Code*)

Revenue is derived from a 1% "profit" tax on Idaho mining operations. For mining operations without a cyanidation facility, 66% of the collections accrue to the General Fund and the remainder (34%) goes to the Abandoned Mine Reclamation Fund. The distribution for the mine license tax collected from mining operations with cyanidation facilities is slightly different. Thirty-three percent of the tax collections from operations with a cyanidation facility are distributed to the General Fund, 33% goes to the Cyanidation Facility Closure Fund, and the remainder (34%) goes to the Abandoned Mine Reclamation Fund. This tax has been levied since 1935. It was initially set at 3%. It was lowered to 2% in 1972 and lowered again to 1% in 2002. The sharp General Fund increase in FY 1999 and the sharp refund increase in FY 2000 are due to a large payment (\$1.25 million) that was made under protest in FY 1999 then refunded in FY 2000.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2009 and FY 2010 are based on a subjective assessment of recent collections history, the current and future levels of employment in mining, and relative mineral prices.

ESTATE AND TRANSFER TAX

Description: (Title 14, Chapter 4, *Idaho Code*)

The Idaho Estate and Transfer Tax is a “Pick Up” tax. The federal code allows a decedent’s estate to take a credit against state estate taxes paid, up to certain limits, based on the size of the estate. The amount of Idaho Estate and Transfer Tax due is equal to this credit. Ten percent of the amount collected is distributed to the county of probate and the remainder, net of refunds, accrues to the state’s General Fund. The Federal Economic Growth and Tax Relief Reconciliation Act of 2001 phased out this credit so that it does not apply to any deaths after 2005. As a result, the amount of Idaho Estate and Inheritance Tax collected will eventually disappear.

LIQUOR SURCHARGE

Description: (Title 23, Chapters 2 and 4, *Idaho Code*)

Gross revenue is derived from liquor sold by the State Liquor Dispensary. Two percent of gross liquor revenue is dedicated to the Drug Court, Mental Health Court, and Family Court Services Fund. From FY 2008 to FY 2009, 60% of the Liquor Dispensary's net profits are distributed to cities and counties. The remaining 40% of net profits are distributed as follows: \$1.8 million to cities and counties; \$2.08 million to the Substance Abuse Treatment Fund; \$0.6 million to the Community College Fund; \$1.2 million to the Public School Income Fund; \$0.65 million to the Cooperative Welfare Fund; \$0.68 million to the Drug Court, Mental Health Court and Family Court Services Fund; \$0.44 million to the Drug and Mental Health Court Supervision Fund; and the remainder of this portion to the General Fund.

The distribution formula changes beginning with FY 2010. Over the five-year period covering FY 2010 to FY 2014, the cities and counties 60% share of net profits will drop by two-percentage points per year to 50%. The other 40% share of profits rises annually in two-percentage point increments to 50% over this same period. This portion of the total net profits will be distributed as follows: \$2.08 million to the Substance Abuse Treatment Fund; \$0.6 million to the Community College Fund; \$1.2 million to the Public School Income Fund; \$0.65 million to the Cooperative Welfare Fund; \$0.68 million to the Drug Court, Mental Health Court and Family Court Services Fund; \$0.44 million to the Drug and Mental Health Court Supervision Fund; and the remainder of this portion to the General Fund.

INTEREST EARNINGS

Description: (Title 67, Chapter 12, *Idaho Code*)

State Treasurer's interest income is derived from investments of idle state funds. Investments are made in time certificates of deposit, U.S. Treasury bills, and repurchase agreements. The earnings from these investments are related to short-term interest rates, coupled with the amount of fund balances available for the Treasurer to invest. All net interest earnings, except those derived from the trust and agency funds, accrue to the General Fund. Beginning in FY 2000, all interest earned on the Permanent Building Fund balance is retained by that fund instead of being paid to the General Fund. In addition, beginning in FY 2000, the Treasurer is allowed to invest in certain corporate financial instruments and United States Small Business Administration Loans.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2009 and FY 2010 are based on an assessment of the State Treasurer's fund balances, forecasts of interest rates, and agency expectations. The FY 2009 projection includes approximately \$2.44 million of net earnings by the Treasurer from the issuance of a tax anticipation note. The FY 2010 projection does not include tax anticipation note earnings.

COURT FEES AND FINES

Description: (Sections 1-402 and 19-4705, *Idaho Code*)

Revenues are derived from court fees and from 8.6% of all fines and forfeitures collected pursuant to the judgment of any court of the state. In the case of Fish and Game law violations, 2.5% goes to the General Fund.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2009 and FY 2010 are based on an assessment of recent collection history, fee changes, and Idaho population growth.

INSURANCE PREMIUM TAX

Description: (Title 41, Chapters 4, 34, and 39, *Idaho Code*)

In 2004 legislation was passed to phase in a single insurance premium tax rate of 1.5% by calendar year (CY) 2010 for net direct insurance premiums written in the state. The 2.75% insurance premium tax rate reduces to 1.5% points over the six-year period beginning with CY 2005. Specifically, the insurance premium tax is 2.5% in CY 2005, 2.3% in CY 2006, 2.1% in CY 2007, 1.9% in CY 2008, 1.7% in CY 2009, and 1.5% in CY 2010. This same legislation gradually increases the reduced rate for companies holding Idaho-based assets from 1.4% to 1.5% over the five-year period beginning with CY 2006. The reduced rate is 1.4% in CY 2005, 1.42% in CY 2006, 1.44% in CY 2007, 1.46% in CY 2008, 1.48% in CY 2009, and 1.5% in CY 2010. The percent of a company's assets invested in Idaho required for the reduced rate is 25% in CY 2005, 20% in CY 2006, 15% in CY 2007, 10% in CY 2008, 5% in CY 2009, and 0% in CY 2010. The premium tax rate for surplus lines of insurance is 2.75% through CY 2006 and 1.5% beginning with CY 2007.

In 2007 legislation was passed that allows all dental coverage carriers to be taxed four cents per subscriber contract per month. Prior to this change, some dental carriers were subject to premium taxes calculated by applying the premium tax rate to the value of premiums.

Premium taxes are collected on a quarterly prepayment basis based upon a percentage of the previous year's business and current year's tax rate. Prepayment percentages are 60% in June, 20% in September, and 15% in December, with the balance due with the filing in March. The fire insurance premium tax collections are dedicated to the Firemen's Retirement Fund.

The Department of Insurance collects a variety of filing and license fees. These revenues are dedicated to the Insurance Administration Fund to fund operations of the Department of Insurance. At the beginning of each succeeding fiscal year, any balance in the Insurance Administration Fund exceeding the current year appropriation by 25% is transferred to the General Fund. Any such transfer is not included in the Insurance Premium Tax, but is recorded as a miscellaneous agency transfer.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2009 and FY 2010 are based on forecasts of insurance premium growth, trends in insurance rates and coverage, agency records of insurers qualifying for the lower rate, and company insolvencies that result in credits taken for guaranty association assessments. These variables and parameters are then run through a simulation model of the cash-flow process to capture the effects on prepayment, filing reconciliation collections, and refunds.

ALCOHOLIC BEVERAGE LICENSES

Description: (Title 23, Chapters 9, 10, and 13, *Idaho Code*)

Revenue is derived from the sale of alcoholic beverage licenses to retailers, wholesalers, and manufacturers at a standard fee.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2009 and FY 2010 are based on a subjective assessment of recent collection history and Idaho population growth.

UNCLAIMED PROPERTY

Description: (Title 14, Chapter 5, *Idaho Code*)

Unclaimed property from bank accounts, safe deposit boxes, travelers' checks, life insurance policies, utility deposits, and the like accrue to the state after certain holding periods. Beginning in FY 1983, amounts in the Unclaimed Property Fund exceeding \$100,000 were transferred to the General Fund. Prior to that time, the excess was transferred to the Permanent Building Fund. Beginning in FY 1995, the Tax Commission transferred amounts in the Unclaimed Property Fund exceeding \$250,000 to the General Fund. The holding period before most types of financial properties are considered abandoned is five years.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

Projections of unclaimed property are based on a subjective assessment of recent collection history and discussions with the Idaho Tax Commission.

UCC FILINGS

Description: (Sections 30-1-122, 53-262, and 67-910, *Idaho Code*)

The principal source of revenue from the Secretary of State is derived from the filings of articles of incorporation. The Secretary of State also collects many other miscellaneous fees, such as Uniform Commercial Code (UCC) filing fees and notary fees. From July 1, 1996 to June 30, 2000, most of the revenue collected accrued to the Commercial Affairs Administrative Fund. Since the beginning of FY 2001, these monies accrue to the General Fund.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

Projections of revenue from this source are based on a subjective assessment of recent collection history, recent tax law changes, and agency expectations.

OTHER DEPARTMENTS AND TRANSFERS

The primary revenue sources for this miscellaneous category are receipts from the Department of Finance, Department of Lands, Department of Administration, and Department of Agriculture. Other agencies provide lesser amounts on a sporadic basis. Environmental violation penalties assessed by the Department of Environmental Quality are an irregular income source. The annual transfer to the General Fund from the Federal Power Act (through the State Treasurer) is also included. However, the unpredictable nature of other items included in this source is evidenced by the collection history.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of miscellaneous General Fund revenues for FY 2009 and FY 2010 are based on a subjective assessment of recent collection history and expected transfers.
