

Part 1 – Agency Profile

Agency Overview

In 1982, legislation was enacted to establish the Catastrophic Health Care Cost Program. The program is designed as an insurance program for the counties to cover the cost of treatment for catastrophic illness suffered by county residents who have no means to pay for the cost of that care. The program picks up the additional medical costs of these residents once the counties' claim payments have exceeded \$11,000 during a 12-month period. Legislation was enacted in 1991 to shift the program from county to state funding in FY 1994.

The CAT fund is governed by an administrative Board, which is made up of a County Commissioner representative from each of the six districts in Idaho, one Governor's appointee, 4 legislators, two from the Senate and two from the House, as appointed by the legislative leadership (2 Democrats and 2 Republicans), and a representative of the Idaho Department of Health & Welfare. Each Commissioner serves a two-year term, is elected by the County Commissioners of their district, and can serve as many consecutive terms as their constituents wish; the Governor's appointee serves at the pleasure of the Governor; the Health & Welfare representative serves at the pleasure of the Director of the Dept. of Health & Welfare; and Legislators serve at the pleasure of their leadership. The Board meets approximately every six weeks to review cases for approval and to attend to any business necessary for the administration of the CAT fund.

A contract administrator carries out the day-to-day business of administering the CAT program. The contract administrator sees to the processing of all CAT cases, from initial case review to presenting them to the Board for determination to the processing of payment of all medical bills received from the counties. The contract administrator works closely with the welfare directors and clerks of each county in order to facilitate payment of claims. The contract administrator also assists the Chairman with the yearly requests for appropriation to the legislature and all other financial reporting and agency management. The contract administrator is currently employed on a 2-year contract with an option to renew for one year at which time the contractor must negotiate a new contract with the Catastrophic Board of Directors.

Under legislation adopted by the 2009 legislature it was anticipated that the Department of Health & Welfare would assist the Catastrophic Board. in developing rules and regulations. The Director continues to be an active member of the Board.

Every year it is a challenge to meet the needs of the citizens of Idaho due to ever increasing health costs as well as the unknown downturns in the economy.

Core Functions/Idaho Code

The purpose of the CAT fund is to assist counties in paying the medical bills for those indigents who have catastrophic medical emergencies and who have fallen through the cracks of the welfare system, or have inadequate insurance to meet the financial responsibilities when their medical costs are of catastrophic proportions. These indigents qualify first through the counties and the counties pay the first \$11,000.00 of each indigent's medical and hospital bills. The counties then submit the cases to the CAT fund. After a review by the Administrative Board, the CAT fund pays bills in excess of that \$11,000.00. Indigents approved for participation in the CAT program remain eligible for benefits for one year. A county resident must reapply to the county if they find themselves in need for a time period in excess of one year, the county must pay an additional \$11,000.00 "deductible" on the 'new' case after which the CAT Fund will again pay any bills in excess of that new \$11,000.00. Performance Highlights:

Pursuant to Idaho Code 31-3504, an automatic lien is attached to all real property of the applicant and on insurance benefits to which the applicant may become entitled. This statute has created additional funding to be used by the counties and the Catastrophic fund for the increasing medical costs and needs of the indigent citizens of Idaho.
