### Performance Highlights

The Department is a dedicated fund agency, and is funded entirely by fees levied by law on the industries subject to its supervision. Monies collected by the Department over and above 125% of its spending authority are transferred into the general fund each year; the Department sometimes transfers dollar amounts greater than the amount it spends. Key performance measurements of Department of Finance regulated entities confirm continued growth and expansion of services throughout the state, and demonstrate that licensees are well-positioned to fund economic development. Since 1996, the Department has more than tripled the number of submissions/licensees handled per employee. This is in addition to the increased efforts of the employees to promote economic development, improve financial literacy, and protect Idaho consumers.
