### Performance Highlights

The Department is a dedicated fund agency, and is funded entirely by fees levied by law on the industries subject to its supervision. Monies collected by the Department over and above 125% of its spending authority are transferred into the general fund each year; the Department transfers dollar amounts that are greater than the amount it spends. Key performance measurements of Department of Finance regulated entities confirm continued growth and expansion of services throughout the state, and demonstrate that licensees are well-positioned to fund economic development. Since 1996, the Department has more than tripled the number of submissions/licensees handled per employee. This is in addition to the increased efforts of the employees to promote economic development, improve financial literacy, and protect Idaho consumers.

### Part II – Performance Measures – Calendar Year (as of June 30, 2009)

**Performance Measure Explanatory Note:**

\*Effective January 2, 2008, the Department implemented a new automated licensing system used to license and regulate the mortgage industry. Development of the Nationwide Mortgage Licensing System (NMLS) was spearheaded by Idaho; the congress and President Bush made using this system mandatory on July 30, 2008. This new system, coupled with the turmoil in the mortgage industry and credit markets, required significant resources, including examiners, preventing the Department from allocating resources to routine compliance exams.
