

## Part I – Agency Profile

### Agency Overview

There are two family medicine residencies in Idaho – the ISU Family Medicine Residency (ISU FMR) in Pocatello and the Family Medicine Residency of Idaho (FMRI) in Boise. Both programs are funded from State allocations, grants, local hospitals, Medicare and patient revenues. Idaho State University is recognized by the Accreditation Council for Graduate Medical Education (ACGME) as the official sponsoring institution of ISU – Family Medicine Residency (ISU FMR). Jonathan Cree, M.D. is the Director of the ISU FMR and Department Chair.

### Core Functions/ Idaho Code

**1. Training family physicians to provide care to populations throughout Idaho, both rural and urban.**

Idaho is 49<sup>th</sup> out of 50 in physician per capita state statistics in the USA and has a special problem recruiting physicians to settle in isolated rural Idaho. Both residency programs have an excellent track record of recruiting family physicians that settle and stay in Idaho, and gives Idaho the honor of being the eighth state in the nation in retention rates. The ISU FMR has 18 medical residents and two pharmacotherapy residents in training, and graduates six new family physicians each June. Thirty-nine of ISU's 77 graduates have stayed in Idaho.

**2. Provision of services to underserved populations in Idaho:**

Reimbursement of such medical services has been declining, while program costs have been climbing. The ISU FMR provides over \$1.8 million in medical services to Medicaid, Medicare, and the indigent. Approximately 50% of the \$2.6 million (or \$1.3 million) annual charges are written off to bad debt and contractual adjustments. The ISU FMR staffs community services such as the Health Department, adolescent detention centers, prison services, free clinics and HIV clinics. The Indian Health Service, migrant workers, nursing home residents and the home-bound also receive medical support from the residents.

Number of Health Profession Students (non-physician) Receiving Clinical Training at FMR Facilities	7	7	7	2PA 3NP, 5Psych, 7 dietetic (17)

Dollar Cost per resident

State dollars received by ISU FMR are \$747,300. Approximately 25% of these dollars are used for departmental needs that have nothing to do with the residency, leaving \$560,475 for 18 residents or \$31,137 per resident as our best estimate of dollar cost per resident. Total departmental budget is \$5.12M; \$747,300 is 14.6% of that figure.

**Performance Highlights:**

Clinical Service Grants: The ISU FMR has active clinical grant writers who pursue grants to help offset residency deficits and enrich the clinical training. Over the last decade, these grants have assisted funding outreach to rural perinatal populations in American Falls and Aberdeen, uninsured GYN patients with pre-cancerous lesions of the uterine cervix, education in the New Model Office Paradigm and Quality Improvements. Total Title VII awards between 1999 and 2005 were \$2,827,542.

New Title VII Award 2008 - 2011: ISU FMR received notice of a \$900,000 award to promote interventions in exercise, nutrition and lifestyle choices at all phases of the family life cycle. We plan to combine a powerful, multi-disciplinary health resource personnel team that will foster the evolution of a new Therapeutic Lifestyle Center in our Family Medicine Clinic. These innovations will be facilitated by an enhanced healthcare information technology infrastructure and the development of a Medical Home Business Model. This award of \$300,000 per year, brings the total clinical grant funding to \$3,727,542.

Research Division: The ISU FMR sponsors an active and successful research division. We are the recipients of two prestigious NIH multi-center trials, ACCORD and AIMHIGH. The division was a major contributor to the ALLHAT study which changed the approach to hypertension treatment all over the world. A staff of highly qualified research assistants and coordinators service these grants; and the clinical research division is extremely productive in scholarship research publications and book chapters. Between February 1995 and February 2008, the ISU FMR Research Division was successful in securing \$2,338,629 in grant funding.

**Performance Measure Notes:**

\*\*Scores are not released until mid September each year.

\*\*\*Number of Residents Matched Annually: The proposed increase in number of residents to was placed on hold owing to financial constraints

\*\*\*Accreditation Status: Accreditation status may be initial, continued, probationary or withheld. The longest time between accreditation cycles is five years. The ISU FMR has the best accreditation status possible.
