

Part 1 – Agency Profile

Agency Overview

The Rehabilitation Act Amendments of 1992 were signed into law by President George Bush on October 30, 1992, requiring the establishment of State Independent Living Councils (SILCs). Idaho's SILC was created by Governor Cecil Andrus by Executive Order 93-01 May 28, 1993 with its membership appointed by the Governor. The SILC became an independent governmental entity as required by 704 of the Rehabilitation Act with the passage of House Bill 711 on July 1, 2005. Membership continues to be appointed by the Governor.

Council members hire and direct the SILC Executive Director, who in turn, manages the day-to-day operation of the SILC. SILC staff currently comprises 4 full time employees. The SILC has one office that is located in Boise. On-going council activities are directed by the State Plan for Independent Living (SPIL). This plan is developed every three years and sets the goals and objectives of the organization.

SILC revenue comes from the Federal Workforce Investment Act (Title 7, Part B through the Idaho Division of Vocational Rehabilitation (IDVR)), State General Funds appropriated by the Idaho Legislature, a sub-lease of office space, interest accrual, and revenue received from grants and contractual projects. Grants awarded have included National Youth Leadership Network (NYLN), the Department of Justice Office of Violence Against Women (OVW) Grant, the Medicaid Infrastructure Grant (MIG), and the AmeriCorps Accessible Transportation Network grant.

The SILC actively engages in activities that assist in providing Idahoans with disabilities a greater voice in obtaining services that are consumer-responsive, cost-effective, and community based. Every three years the SILC seeks significant input from constituent groups to gather real-world input when developing the three-year SPIL. The core functions of the SILC are specific to both the federal mandates and Idaho Code and are the rationale behind the SPIL. To meet the goals and objectives of the SPIL the SILC has applied for various federal and non-federal grants and has partnered with state agencies and advocacy organizations to effect positive change.

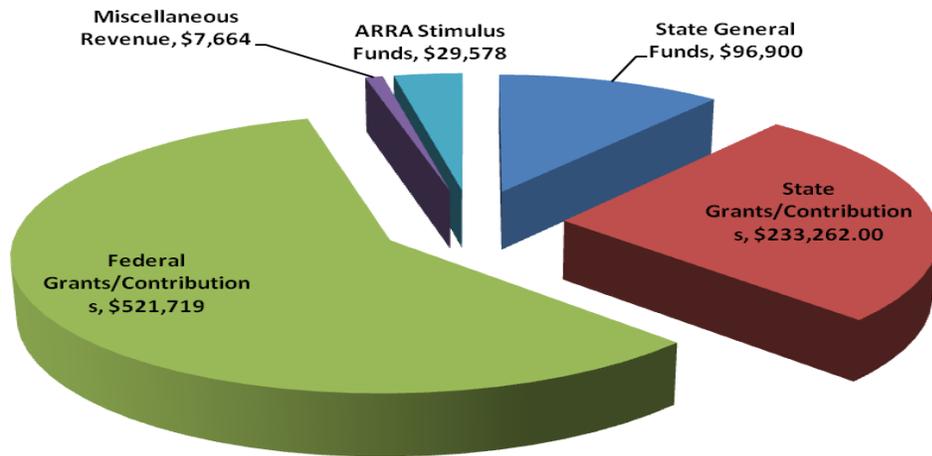

Core Functions/Idaho Code

Federal and state mandates (29 U.S.C. section 796d(c) and 34 CFR 364.21) require the SILC to: 1) Develop, sign and submit, in conjunction with the IDVR and the ICBVI, the SPIL for people with disabilities. SILC must monitor, review, and evaluate the implementation of the SPIL. 2) Support the centers for independent living (CILs) and advocate for independent living (I L) services provided through state and federal programs for people with disabilities. 3) Gather and disseminate information, conduct studies and analyses, develop model policies, conduct training on I L philosophy, and work to expand and improve I L services. Additionally, Chapter 12, Title 56, Idaho Code, requires the SILC to 1) assess the need for services for Idahoans with disabilities and advocate with decision makers. 2) Supervise and evaluate such staff as may be necessary to carry out the functions of the council. 3) Ensure that all regularly scheduled meetings of the council are open to the public and that sufficient advance notice of meetings is provided pursuant to the open meeting law. 4) Prepare reports and make recommendations, as necessary. 5) Perform other activities the council deems necessary to increase the ability of Idahoans with disabilities to live independently. 6) Promulgate rules, as may be necessary in compliance with Chapter 52, Title 67, Idaho Code.

Performance Highlights:

TITLE 7 PART B INDEPENDENT LIVING GRANT

The Title 7 Part B Independent Living grant is the primary program of the SILC even though the funding from the other grants exceeds the funding for this grant. The SILC at its Quarterly Business Meeting reviews the SPIL to ensure that we are meeting the requirements of the state plan. The SPIL is submitted every three years for a three year period based on the federal fiscal year of October through September and all the information contained in the SPIL is compiled by the SILC in partnership with IDVR and ICBVI. The SILC submitted the 2011-2013 SPIL to the Rehabilitation Services Administration (RSA) prior to July 1, 2010. All activities of the SILC including determining which grants to continue or apply for are dependent upon the approved SPIL. The 2011-2013 SPIL was approved by RSA, without revision, in September 2010. The SILC is in the process of conducting statewide focus groups in preparation for the submission of the 2014-2016 SPIL due to RSA on June 30, 2013.

One of the goals and benchmarks of the SILC is to provide current and accurate information regarding issues that directly impact individuals with disabilities. Due to budget constraints the SILC did not provide any hard copy newsletters or legislative updates to constituents this fiscal year. In 2010 the Council voted to post all future newsletters on the SILC website unless specifically requested for a hard copy format. Traditionally, the SILC has hosted a statewide conference on independent living every two years. The last conference was held January 2009. Due to a lack of funding in this fiscal year and an anticipated lack of funding for state fiscal year 2013, the Council has postponed all plans for a future conference until the economy improves.

The SILC is also federally mandated to compile the information necessary to complete and submit the 704 Report in partnership with the Idaho Division of Vocational Rehabilitation and the Idaho Commission for the Blind and Visually Impaired. The 704 Report is *the* data gathering tool used by the U.S. Department of Education to determine the effectiveness of all federally funded Title VII Part C Independent Living Centers and Statewide Independent Living Councils.

An additional goal of the Council is to provide an updated statewide survey involving Idahoans with disabilities. Past SILC surveys have been consistently used by multiple state and private entities for their own research and grant applications. The Council has delayed contracting with Boise State University (as with all previous surveys) due to budget constraints and plans to utilize the 2010 US Census to supplement its own survey and to minimize costs. The SILC did however conduct an independent survey on faith based and community supports that are available within Idaho and how the reductions in services have impacted their volunteer organizations. In addition the SILC, through the MIG, contracted with Boise State University, Center for the Study of Aging, to conduct a needs assessment on Employment Related Supports: Opportunities and Challenges for the Idaho Home Choice Program. This report is available on the SILC Website.

All other goals and benchmarks were carefully drafted into the AmeriCorps Accessible Transportation Grant through Idaho Department of Labor/Serve Idaho, Office of Violence Against Women Grant, and the Medicaid Infrastructure Grant.

TITLE 1 INDEPENDENT LIVING GRANT

The Title 1 Independent Living Grant funds have been contracted for with the Idaho Division of Vocational Rehabilitation to ensure that the SILC can fund a full time Financial Technician as required during the 2010 FFY RSA Review. The SILC is utilizing these funds when appropriate, however because these funds require a 21.3% State General Fund match the SILC is only using these funds as a last resort. Other state and federal funds are being utilized to fund this position whenever necessary and documentation of each grant time coding is on file.

DOMESTIC VIOLENCE/DISABILITY GRANT PROJECT

The SILC has been selected as the disability partner for the 2011 OVW Domestic Violence/Disability Grant with the Idaho Coalition Against Sexual and Domestic Violence. The grant was awarded in October 2011 and is in the grant development process currently. Jami Davis will serve in a part time position on this grant and continue in the position of Assistant to Management.

MEDICAID INFRASTRUCTURE GRANT

The Medicaid Employment Empowerment Project continues its work to increase the competitive employment of people with disabilities by disseminating accurate information about Idaho’s Medicaid for Workers with Disabilities program (Medicaid Buy-In) and promoting employment for people with disabilities. Challenges have included working with the Department of Health and Welfare Division of Medicaid to provide accurate and consistent information about this program and in providing hard data and statistics regarding participants as contracted. Budget constraints forcing lay-offs and furloughs have forced multiple state agencies to end many programs. Because of the budget constraints faced by the Department of Health and Welfare, specifically Division of Medicaid has provided increased collaboration with the SILC through the MIG. Successes have been observed in the Personal Assistance Services (PAS) program and in the recruiting of individuals with disabilities to be trained as personal care assistants for people with disabilities. The MIG/SILC is currently partnered with the Centers for Independent Living and the Idaho Division of Medicaid on the Idaho Home Choice Money Follows the Person Project.

This grant began January 1, 2009 and is cycled on the calendar year. By the end of state fiscal year 2012 this grant has been in progress for 3 years. Monique Johns is the Project Director. The SILC also received \$250,000 in MIG supplemental funding and will ask for a No-Cost Extension through 2013.

Part II – Performance Measures

Performance Measure	FY 2009	FY 2010	Benchmark	FY 2011	FY 2012
In conjunction with CILs, conduct a statewide I L conference to promote leadership development.	250 people attended. It is believed that over 600 attended the march to the Capital Annex to speak with legislators.	Due to budgetary constraints a conference will not be hosted by the SILC in SFY11.	Desired goal was 300 participants. It is possible that a poor economy prevented additional participation and sponsorship.	Due to budgetary constraints a conference was not hosted by SILC in SFY2011.	Due to budgetary constraints a conference was not hosted by SILC in SFY2012.
Continue the means for delivery of urgent information and immediate action by consumers and supporters.	A single legislative update was mailed (5,000 instead of 10-15,000). Legislative information session held.	All updates and newsletters were posted on-line. A postcard was mailed to constituents explaining new electronic procedure.	This benchmark has been met.	We have continued to post newsletters on our website, urgent updates and information on both SILC Twitter & Facebook.
