

Part I – Agency Profile

Agency Overview

As designated by the Carnegie Foundation, the University of Idaho is a doctoral granting higher research activity institution and the state's land-grant university committed to undergraduate- and graduate-research education with extension services responsive to Idaho and the region's business and community needs. The University is also responsible for medical and veterinary medical education programs in which the state of Idaho participates; WWAMI – Washington-Wyoming-Montana-Alaska-Idaho for medical education; WI – Washington-Idaho for veterinary medical education. The University of Idaho has a primary and continuing emphasis in agriculture, natural resources and metallurgy, engineering, architecture, law, foreign languages, teacher preparation and international programs, business, education, liberal arts, physical, life and social sciences; some of which also provide the core curriculum or general education portion of the curriculum.

The institution serves students, business and industry, the professional and public sector groups throughout the state and nation as well as diverse and special constituencies. The University also has specific responsibilities in research and extension programs related to its land-grant functions. The University of Idaho works in collaboration with other state postsecondary institutions in serving these constituencies.

Core Functions/Idaho Code

Recognizing that education was vital to the development of Idaho, the Idaho territorial legislature set as a major objective the establishment of an institution that would offer to all the people of the territory, on equal terms, higher education that would excel not only in the arts, letters, and sciences, but also in the agricultural and mechanic arts. The federal government's extensive land grants, particularly under the Morrill Act of 1862, provided substantial assistance in this undertaking. Subsequent federal legislation provided further for the teaching function of the institution and for programs of research and extension. In all, approximately 240,000 acres were allocated to the support of Idaho's land-grant institution.

After selecting Moscow as the site for the new university, in part because Moscow was located in the "center of one of the richest and most populous agricultural sections in the entire Northwest" and the surrounding area was not subject to the "vicissitudes of booms, excitement, or speculation," the University of Idaho was founded January 30, 1889, by an act of the 15th and last territorial legislature. That act, commonly known as the university's' charter, became a part of Idaho's organic law by virtue of its confirmation under article IX, section 10, of the state constitution when Idaho was admitted to the union. As the constitution of 1890 provides, "The location of the University of Idaho, as established by existing laws, is hereby confirmed. All the rights, immunities, franchises, and endowments heretofore granted thereto by the territory of Idaho are hereby perpetuated unto the said university. The regents shall have the general supervision of the university and the control and direction of all the funds of, and appropriations to, the university, under such regulations as may be prescribed by law." Under these provisions, the University of Idaho was given status as a constitutional entity.

Footnotes for Profile of Cases Managed and/or Key Services Provided

¹ Summer, Fall and Spring, as reported to SBOE on the PSR-1 Annual Student Enrollment Report only includes UG and GR (no early college). FY15 had an incorrect total, it has been corrected.
² Based on SBOE Annual PSR-1. FTE = Annual Credits divided by 30 for Undergraduate, 24 for Graduate, 28 for Law. WWAMI is student headcount.
³ Rolling 3-year FTE calculated from UI data warehouse to derive Academic Certificate values.
⁴ Cost of College Step 4 figures based on Audited Financial Statements for previous FY (from General Accounting office). Total weighted undergraduate credit hours from EWA divided by undergraduate dollars from Cost of College report.
⁵ Only postsecondary credits taken by high school students are counted as dual credit.
⁶ Study Abroad and National Student Exchange are coded in the course subject fields.
⁷ Idaho resident new freshman with test scores indicating need for remediation per UI standards.
⁸ From the UI web-based, Graduating Senior Survey.
⁹ Bachelor's degrees only, as reported to IPEDS. STEM fields using CCA definitions.
¹⁰ Number of participating students, as reported by UI Career Center/Service Learning Center, divided by full-time degree seeking student headcount. Includes all program levels.

¹¹As reported by UI Controller’s Office, Benchmark based on NACUBO recommendations. Values represent calculations for prior fiscal year. Prior years have been updated at the request of John Keatts, Associate Controller.

FY 2017 Performance Highlights

- The University of Idaho grew its enrollment in 2016-2017, including an increase in new first-year students from Idaho, transfer students and dual-credit participants.
- UI continued to lead among Idaho public institutions in financial aid awards (Princeton Review), six-year graduation rates (College Scorecard), freshman-to-sophomore retention (College Scorecard), and early- and mid-career earnings after graduation (PayScale).
- In January 2017 the university celebrated the opening of the Integrated Research and Innovation Center (IRIC), an LEED-gold certified center for interdisciplinary research on its Moscow campus. This followed the LEED-gold certification of the remodeled College of Education Building in the fall.
- UI received State Board of Education approval to offer first-year law curriculum in Boise at the Idaho Law and Justice Learning Center, rounding out the three-year curriculum offered at that location. This law curriculum approval as well as approval for the first two years of the Bachelor of Science architecture degree program at the UI Boise Urban Design Center and six undergraduate online courses have expanded UI’s academic footprint around the state.

Performance Measure Explanatory Notes

¹ Postdocs and Non-faculty Research Staff with Doctorates as reported annually in the Graduate Students and Postdoctorates in Science and Engineering Survey (<http://www.nsf.gov/statistics/srvygradpostdoc/#qs>).

² As reported to NSF annually by the UI Office of Research and Economic Development. Data is for the year prior to the FY indicated, as that is when we report the research dollars and they are not available until late fall.

Enhanced tracking of interdisciplinary grants resulted in higher values for FY2013 (Reported in FY2014).

³ This is the average percentage of those who engaged in service learning (item 12 2015 NSSE), field experience (item 11a NSSE) and study abroad (item 11d) from the NSSE. Survey completed every three years.

⁴ HERI Faculty Survey completed by undergraduate faculty where respondents indicated that over the past two years they had, "Collaborated with the local community in research/teaching." This survey is administered every three to five years.

⁵ This metric consists of headcounts from the data set used in reporting headcounts to the SBOE, IPEDS and the Common Data Set as of Fall census date. The data is updated annually.

⁶ As reported to IPEDS. Each year's rates reflect the percentage returning the fall of the FY specified. In FY2013 the target for First-time Full-time Freshman was obtained from the SBOE Strategic Plan rather than the peer median.

⁷ This is reported from the annual data used to report for IPEDS and the Common Data set for the most recent year and includes certificates.

⁸ The percentage of full-time faculty and staff that are not Caucasian/Unknown from the IPEDS report. Full-time faculty is as reported in IPEDS HR Part A1 for full-time tenured and tenure track. Full-time staff is as reported in IPEDS B1 using occupational category totals for full-time non-instructional staff.

⁹ The headcounts used for this metric are derived from the data set used to report to the SBOE at fall census date. This is based on the categories used by IPEDS and the Common Data Set. The census date data is updated annually.
