

Part I – Agency Profile

Agency Overview

In 1982, legislation was enacted to establish the Catastrophic Health Care Cost Program. (CAT) The program was designed by the counties, for the counties to cover the cost of treatment for catastrophic illness suffered by county residents who have no means to pay for the cost of that care. The program picks up the additional medical costs of these residents once the counties verify that payments have exceeded \$11,000 during a 12-month period. Legislation was enacted in 1991 to shift the program from county to state funding in FY 1994.

The CAT fund is governed by an administrative board, which is made up of a county commissioner representative from each of the six districts in Idaho, one Governor's appointee, four legislators—two from the Senate and two from the House, as appointed by the legislative leadership —and a representative chosen by the Director of the Idaho Department of Health & Welfare. Each commissioner serves a two-year term, is elected by the county commissioners of their district, and can serve as many consecutive terms as their constituents wish. The governor's appointee serves at the pleasure of the governor; the health & welfare representative serves at the pleasure of the Director of the Dept. of Health & Welfare, and legislators serve at the pleasure of their leadership. The board meets approximately every eight to ten weeks or as necessary for the administration of the CAT fund.

The Catastrophic Health Care Cost Program Board acts as the administrator for the fund and contracts out the day-to-day business of managing the CAT program. The contractor sees to the processing of all CAT cases, from initial case review to presenting them to the CAT board for determination, to the processing of payment of approved medical claims received from the counties. The contractor works closely with the social service directors and clerks of each county to facilitate payment of medical claims and to collect and reconcile reimbursement payments received from patients. The CAT Board is currently negotiating the contract with the Idaho Association of Counties, which will be effective October 1, 2017 for one year. The fund has an annual independent audit done which is supplied to the state controller's office for inclusion in the state accounting report (CAFR).

It continues to be a challenge to meet the ever-growing needs of medical providers on behalf of the citizens of Idaho. The CAT Board of Directors is diligent in their efforts to protect both county and state taxpayer dollars. We have implemented a number of policies and programs which have saved money over the past 7 years. Those combined with the implementation of the state health exchange appears to have reduced Idaho's dependency on the indigent program significantly.

Core Functions/Idaho Code

The purpose of the CAT fund is to assist in covering Idaho residents' medical expenses when they are determined by their resident county to be *medically* indigent. People must first qualify for financial assistance through an application process with their county. The counties pay the first \$11,000 of each indigent's medical bills. The counties then submit the cases to the CAT fund for consideration of payment. After a review by the Board of Directors, the CAT fund pays approved claims that exceed \$11,000.00 per applicant during a 12-month period. A lien is placed and administered by the county, and the applicant must repay the debt over time. All pursuant to Chapter 35, Title 31, Idaho Code.

Budgeting for 2019

Estimates for FY 2019 has been a challenge.. The unpredictability of this program lies in the essence of its creation. While we have seen a down turn in dollars spent for two years, it is not practicable to attempt to predict catastrophic medical events in people's lives. Prudent decision making insists a cushion must also be included to account for the inconsistencies that abound in this unique program.
