

Idaho General Fund Revenue Report

Brad Little, Governor Lori Wolff, Administrator Division of Financial Management Executive Office of the Governor

July revenue: reported Wednesday 21st August, 2024

and a new revenue forecast. Total general fund revenue is predicted taxes altogether are expected to at \$5.4b, with \$1.77b in sales tax raise \$3.22b net in FY 2025, quite revenue headed toward the general fund, and accruals of \$2.43 b in individual income tax and \$0.78 b in corporate income tax. Other sources will bring in \$0.42 b. More than a third of that will be a June deposit of built-up on-line sales tax from the tax relief fund.

C ales tax has many diversions towards other state funds. This fiscal year brings an increased allocation to the school district facility fund and a new distribution (\$125 m) to the school modernization fund. Gross sales tax revenue is expected to be \$3.25 b this fiscal year; net sales tax revenue would be quite close to that, at \$3.24 b.

individual income tax collections are expected at \$2.44 b this year, and net corpo-

uly opens Idaho's fiscal year rate income taxes are expected at Thus, income $$0.79 \,\mathrm{b}$ this year. similar to the net amount expected to be raised by the sales tax.

> I ndividual tax filings in FY 2025 are likely to result in \$0.65 b in refund payments. Corporate tax filings could bring \$0.15 b in refund payments. Thus almost \$0.8b in payments to the state are likely to be unwound through refunds.

> T eft in refund payments remains Π tied to the state and local tax work-around that the IRS granted to affected business entities. This change undid some of the limitation imposed in the 2017 tax reform and blurred the tax lines between individuals and corporations. Idaho conformed to that via HB317.

> roduct tax revenue is not expected to grow. This reflects differing alcohol consumption pat

terns emerging. The insurance premium tax, and then interest income earned on state revenue before it is spent, make up much of codes, fees, and fines, and these are part of miscellaneous revenue in this report.

iscellaneous revenue is some-IVI what constrained by the new distributions legislated on the tax relief fund. This year, 20-percent of the on-line sales tax revenue deposited in that account is continuously redirected to the school district facilities fund rather than back to the general fund through a June transfer. The school district facilities fund is a mechanism for lowering the property tax burden on Idahoans as sales taxes — now to a greater extent — support school There is also a \$39 m districts. transfer from the tax relief fund to the public defense fund this fiscal year; that is, by Idaho code, \$3 m more than last fiscal year.
