

Idaho General Fund Revenue Report

Brad Little, Governor
Lori Wolff, Administrator

Division of Financial Management
Executive Office of the Governor

December revenue: reported Monday January 13th, 2025

December brought in at least \$615.6m; both the governor’s office and the legislature endorse earlier reporting, even if miscellaneous revenue is not yet finalized. The new forecast, prepared over Thanksgiving, expected \$565.4m. Thus the general fund begins the calendar year \$50.3m ahead of the new projection for FY 2025.

Fiscal year to date, total revenue has reached \$2.576 b. In comparison, revenue the past two years had reached \$2.431 b in FY 2024, and \$2.695 b in 2023. Those years recorded totals of \$5.381 b and \$5.948 b, respectively. The expectation for this FY is for \$5.618 b.

Returning to the monthly view, sales tax net revenue directed to the general fund was \$174.9m. Net collections were \$250.8m.

Monthly distributions:

- ◆ \$26 m to local governments

- ◆ for revenue sharing
- ◆ \$9.0m to Transportation Expansion and Congestion Mitigation
- ◆ \$31.4 m to School District Facility Fund (SDFF)
- ◆ \$4.3 m to Homeowner Property Tax Relief

The large transfer updates the SDFF, which was out-of-step due to code: 57-811(2) does not specify the entity to perform the transfer from the Tax Relief Fund (TRF) to the SDFF whereas 63-3620F(2) does specify the entity to perform the transfer into the TRF.

Individual income tax collections brought in \$193.0m for the general fund. Withholding collections were \$203.5m. From the prior year, that is up by almost \$35m, and a bit above the expectation of \$195.2m. Refunds were \$29.2m. Filing payments were \$18.9m. Both of these were lower than expecta-

tion, but the errors were offsetting. In net payments the expectation was for -\$21.6m, and actual net payments were -\$10.1m.

Corporate income tax recorded \$229.2m. This is the fourth-highest monthly accrued value in corporate income tax collections. December now has recorded four of the largest 10 months of corporate income tax collections; this is largely due to HB-317 from the 2021 legislative session. December 2023 saw a reduction from the December 2022.

Product taxes remain close to target. They have brought in \$37.7m FYTD, versus the expectation of \$37.9m FYTD.

Miscellaneous sources of revenue are not yet all accounted for in December; those that are in show revenues about \$1.6m behind expectation. An update will be provided in the next report.
