### Performance Highlights

There are more than 132,000 Veterans residing in Idaho. Federal Department of Veterans Affairs expenditures in Idaho are approximately \$820 million, broken down as follows: Compensation and pensions: \$401 million dollars; readjustment benefits: \$58 million; medical and construction programs: \$352 million, and insurance and indemnities: \$8 million. There are also approximately 13,000 Idaho Veterans receiving retirement benefits, resulting in an additional contribution of almost \$300 million to the State's economy. We have experienced an increase in the number of Idaho Veterans as our service members have been returning from Iraq and Afghanistan, and we expect this to continue at an even greater rate as our military downsizes. We have been working hard to stay ahead of these changes by increasing the number of Service Officers we have available to help ensure Idaho Veterans receive the benefits and compensation to which they are entitled.

The Veterans Support Fund received \$36,343 in tax donations, through the check-off block on State Income Tax Forms, and \$29,928 in direct donations. With the addition of this funding to previous years' donations, the Veterans Support Fund was able to provide over \$60,411 for a variety of programs that benefit Idaho Veterans.

Division facilities have received many upgrades over the last fiscal year. We more than doubled the number of in-ground burial spaces and increased by one-third the number of columbarium wall niches with a federally-funded expansion project at the Veterans Cemetery. We have also completed a number of significant repair and remodeling projects at the Veterans Homes, both in the living spaces and to the physical plants.
