

Part I – Agency Profile

Agency Overview

The Idaho Dental Education Program (IDEP) is Idaho's assisted route of access for dental education. There are currently eight (8) seats available per year for Idaho residents to obtain their dental education. The Program began in 1981 with a cooperative agreement between Idaho State University and The University of Washington School of Dentistry, where five (5) Idaho residents received their dental education. In 1982 the program became a cooperative effort between Creighton University's School of Dentistry in Omaha, Nebraska and Idaho State University in Pocatello, Idaho. The program involves a decentralized first year of education taught at Idaho State University and the second through fourth years taught at Creighton University.

The program currently has five (5) regular employees and five (5) adjunct employees in Pocatello. Dr. Jeff Ybarguen (IDEP graduate) is the program director and works with Dr. Brian Crawford who is the Chair of the Department of Dental Sciences at ISU. Jeri Larsen is the Department Coordinator and works with both the IDEP program and the Idaho Advanced Education in General Dentistry (AEGD) residency program. These programs are located in the same facility at Idaho State University.

Core Functions/Idaho Code

The mission of the Idaho Dental Education Program is two-fold: First, to provide residents of Idaho with ready access to a high quality dental education; and second, to help the population of Idaho have ready access to high quality dental professionals. As the majority of students graduating from the program return to Idaho to practice, residents of the state have access to high quality dental treatment. [Statutory Authority: Idaho Code §33-3720]

Performance Measure Explanatory Notes (Optional)

- * Historically we have always seen a 100% pass rate.
- ** Our goal has been to expand the program to facilitate ten students per year. We currently have eight students per year in the program.
- *** The cost per DDSE (DDS Equivalent) is a commonly utilized measure to evaluate the relative cost of a dental education program. This information is tabulated in the *ADA Survey of Dental Education*, published by the American Dental Association. From this publication (inflation Adjusted) the national average cost per student for state programs is \$138,237 in 2020. The IDEP cost per student for 2020 was \$55,700 (40% of the national average). The program is accomplishing the goal of providing a competitive value in educating Idaho dentists.
- **** Our goal is to have greater than 50% of our program participants return to Idaho to practice Dentistry. Four of the eight graduates in 2020 are furthering their education through post-graduate residency programs and may return to Idaho at the completion of their residency training. One of the graduates entering private practice returned to Idaho (Fruitland). Two previous IDEP graduates that completed residency programs returned to Idaho to practice during the reporting period.
