

Part I – Agency Profile

Agency Overview

The Idaho Military Division (IMD) is an agency of the State of Idaho that oversees the State Armed Forces within the state, established under Title 46 of the Idaho Code. Under the authority and direction of the Governor as Commander-in-Chief, the agency is responsible for planning, establishing, and enforcing rules and procedures governing the administration, supply, and training of the Idaho National Guard (consisting of the Idaho Army National Guard and the Idaho Air National Guard), when not in the active service of the United States. The department also maintains all state-owned or leased military facilities, including posts, camps, military reservations, and rifle ranges.

The IMD is under the direction of the Adjutant General, Idaho (TAG-ID), who is appointed to that position by the Governor and serves at his pleasure. The Idaho Constitution describes the TAG-ID as being the “Commanding General” of all military forces organized within the state (excluding U.S. national forces). Idaho Code names him as the chief administrative officer of the IMD and the Idaho Office of Emergency Management (IOEM). IOEM coordinates state and federal disaster assistance; administers procurement and placement of specialized response equipment for local jurisdictions; and designs and coordinates emergency preparedness training and exercises. Public Safety Communications (PSC) maintains, upgrades, and administers the statewide communications network and equipment. TAG also administers the Idaho Youth Challenge Academy located in Pierce, Idaho, whose mission is “to intervene in and reclaim the lives of 16-18-year-old high school dropouts producing program graduates with the values, life skills, education, and self-discipline necessary to succeed as responsible citizens of Idaho.”

The Adjutant General and Commanding General of the Idaho National Guard is assisted in his duties by an Assistant Adjutant General-Air (AAG-ANG), and an Assistant Adjutant General-Army (AAG-ARNG), and in his duties over emergency management, he is assisted by the Director of the Idaho Office of Emergency Management.

Idaho National Guard

The Idaho National Guard (comprised of both IDARNG and IDANG) is that portion of the organized militia of Idaho which is mandated by Idaho Code to be so constituted, trained, and disciplined so as to conform to standards prescribed by the Secretary of Defense through the Departments of Army and Air Force. Members of the Idaho National Guard (IDNG) and National Guard of the United States are subject to a call to federal military services by the President, just as they are subject to a call to state military service by the Governor to defend and preserve the life, limb, property, or liberties of the citizens of the United States and the State of Idaho.

National Guard training areas are located at Gowen Field, Orchard Combat Training Center, and 20 readiness training centers (armories) located throughout Idaho. There are 4,604 (3,272 ARNG, 1,332 ANG) National Guard members, 723 AGR members, 730 federal technicians, and 350 state FTP that support the Guard mission. Eighty-eight percent of the division’s state employees are federally reimbursed.

Idaho Office of Emergency Management (IOEM)

IOEM coordinates the state and federal response to disasters and assists local jurisdictions with emergency and disaster mitigation and preparedness activities. To fulfill their mission, IOEM assists state agencies and local jurisdictions with planning activities to mitigate, prepare for, respond to, and recover from major emergencies, disasters, and acts of terrorism; they provide ongoing training and exercises to enhance general disaster readiness; and they assess weaknesses in state and local response and recovery to disasters, natural or man-made.

In 2020, IOEM managed seven emergency preparedness grants from the federal government totaling \$9,376,600. These grants support state and local efforts to sustain emergency management activities and equipment among all Idaho counties, and six Regional Response Teams. IOEM also provides disaster support to four tribes across the state.

Idaho Office of Emergency Management employs 40 state FTP to fulfill their emergency management mission. The IOEM main office is located at Gowen Field; they have six area field officers, located throughout the state to work with counties and local jurisdictions.

Public Safety Communications and IT Services (PSC)

Public Safety Communications operates and maintains the state’s microwave system and state agencies’ compatible communications equipment. This organization maintains and sustains the systematic update of the state’s communications equipment in accordance with federal guidelines and accepted interoperable communications policies.

Core Functions/Idaho Code

Idaho National Guard – Authorized by the constitution and laws of the State of Idaho, to provide a perpetual and trained militia composed of all able-bodied citizens of the state between the ages of 18 and 45, who are subject to the Governor’s call to state duty to defend and preserve life, limb, property or the liberties of the citizens of the state. I.C. 46-102.

Emergency Management and Preparedness - Provides emergency management support and training to local officials, private sector organizations, and citizens for mitigation, preparedness, response and recovery from -- natural or man-made disasters. I.C. 46-1018A.

Interoperable Communications - Public Safety Communications and IT Services is responsible to maintain and manage the state’s public safety equipment and communication assets. PSC ensures that communications equipment procured by all state agencies adhere to recognized interoperability capability standards, and that the equipment is adequately maintained to comply with those standards. I.C. 46-1204.

Revenue and Expenditures

Revenues

Seventy-nine percent of the revenues come from federal grants. National Guard funds are granted to the state primarily to build and maintain the training facilities for the Idaho National Guard. Homeland Security funds are granted to improve the state’s readiness and response to natural or man-made disasters. Public Safety Communications revenue is generated from fees charged for bandwidth usage on the statewide microwave system and maintenance of state agency communications equipment. Miscellaneous revenue has increased significantly due to private donations and Average Daily Attendance (ADA) funding for the Idaho Youth ChalleNGe Academy.

Expenditures

Expenditures are in support of the maintenance and construction of the National Guard training facilities, National Guard Youth Programs; the administration of a statewide emergency program; and maintenance of an effective and reliable interoperable communications system for the state.
