Vision

A better Idaho where the legal system treats each person with fairness and dignity.

Goals

Provide Competent, Constitutionally Sufficient Representation to All SAPD Clients

Objective	Strategy	Performance Measure	Benchmark
The Deputy SAPD’s will engage in a legal practice that comports with professional and ethical obligations, and will provide each client with constitutionally adequate representation.	The State Appellate Public Defender (“SAPD”) will provide regular information on ethical obligations and constitutionally required services to Deputy SAPD’s and encourage communication and discussion of impediments to meeting those obligations, including excessive workloads.	The attorneys of the State Appellate Public Defender’s office will not have reprimands from the Office of Bar Counsel or the Idaho Supreme Court. There will be no affirmed findings of ineffective assistance of counsel against an attorney of the Office of the SAPD.	1) Presentation of information, including case law and legal opinions, to the attorneys of the SAPD relevant to ethical and professional responsibilities each quarter; and 2) Open discussion of ethical and professional issues and anything that impedes adherence to standards as issues arise.

External Factors

The ability of the Office of the State Appellate Public Defender to achieve its goals is limited by the time and resources available which is impacted by the number of cases assigned to the SAPD and the available financial and personnel resources. For example, a key requirement of many goals is the ability to control workloads such that cases can be processed in a timely fashion and sufficient time is available to ensure that counsel can review each case and respond to the needs of each client. In addition, if the workloads are excessive there is little to no time which can be dedicated to necessary training or participation in relevant criminal justice organizations. However, the SAPD's ability to control workloads is dependent upon the number of cases assigned to the SAPD by Idaho's district courts, and by the legislature's approval of full-time positions. Increases in the number of cases assigned to the SAPD must be met with additions in personnel and resources to meet the increased workload. The SAPD's ability to add personnel is, in turn, dependent upon outside forces including a sufficient budget appropriation and approval for additional full-time employees. Likewise, the SAPD's ability to identify and implement a software system that is integrated with the Idaho Supreme Court is dependent upon the Supreme Court's implementation of electronic filing, adoption of appellate case management software, and the SAPD's ability to identify and implement software that will be compatible.
