

Part I – Agency Profile

Agency Overview

The Idaho Small Business Development Center (Idaho SBDC) was established in 1986 as a partnership between the U.S. Small Business Administration, the State of Idaho, and Idaho's institutions of higher education. The Idaho SBDC provides no-cost business consulting and affordable training to help entrepreneurs and small business owners start and grow successful businesses. Nationally, as in Idaho, over 70% of net new jobs are being created by the small business sector.

The Idaho SBDC is a network of business consultants that operates under the umbrella of the state's colleges and universities. Boise State University's College of Business and Economics serves as the State Office with administrative responsibility for directing the type and quality of services across the state. Regional offices in the following locations are funded under sub-contracts with the host institutions.

North Idaho College – Coeur d'Alene
Lewis-Clark State College - Lewiston
Boise State University – Boise and Nampa
College of Southern Idaho - Twin Falls
Idaho State University - Pocatello
Idaho State University - Idaho Falls

The Idaho SBDC also manages two business accelerators – one in Nampa and one in downtown Boise. The accelerators are physical locations that provide space and programs to help early-stage companies accelerate their growth.

Core Functions/Idaho Code

Pursuant to Title **15 U.S.C. § 648** authorizes the State Board of Education to outline requirements in order to provide assistance towards small business development.

The Idaho Small Business Development Center has two basic functions—coaching/consulting and training.

Coaching/Consulting - The Idaho SBDC provides confidential, no-cost, individualized business consulting and coaching to help small business owners and entrepreneurs increase their knowledge, skills, and abilities for running a successful business. Primary consulting is accomplished with a small core staff of professionals, most with advanced degrees and five years or more of small business ownership/management experience. Business coaching/consulting is designed to provide in-depth business assistance in areas such as marketing, finance, management, production, innovation, government contracting and overall business planning.

Faculty and students at each institution expand the Center's knowledge and resource base and provide direct assistance in appropriate cases working directly with business owners and entrepreneurs on specific projects. The students are provided the opportunity, under the direction of professional staff and faculty, to apply classroom learning in real-world situations. 'Real-world' laboratory experience for our college and university faculty and students provides long-term benefits to the business community and helps the academic institutions remain current on needs, problems, and opportunities of Idaho's business sector.

The Idaho SBDC also provides low-cost, non-credit training to improve business skills. Workshops, primarily directed at business owners, are typically 2 – 4 hours in length and attended by 10 – 25 participants. Training covers topics such as marketing, accounting, management, finance, social media, etc. A variety of faculty, staff and private sector experts are used to ensure timely, useful material is presented by a subject-matter expert. A standard training format allows the Idaho SBDC to provide consistent, cost-effective training throughout the state.
