

Part I – Agency Profile

Agency Overview

In 1993, the Idaho Department of Commerce convened 45 representatives of economic development groups who supported the manufacturing extension center concept. In 1994, the Governor and ten key economic development entities pledged support for manufacturing extension by signing Idaho’s Technology Partnership Agreement. Approval to establish “TechHelp” within the National Institute of Standards and Technology (NIST) Manufacturing Extension Partnership (MEP) was granted in late 1995. In 1996, TechHelp was established at Boise State University and the first director and field engineer were appointed.

Today, TechHelp is a partnership of Idaho’s three state universities and the Idaho Manufacturers’ Alliance (IMA). The center is an affiliate of the NIST MEP national network. It is also Idaho’s Economic Development Administration University Center, targeting economically distressed areas of Idaho. TechHelp specialists have access to cutting-edge knowledge through links to local universities and to a national network of over 1,300 manufacturing specialists through 51 centers in the MEP National Network.

TechHelp’s manufacturing specialists operate out of offices in Boise, Twin Falls, Post Falls, and Pocatello. TechHelp’s primary mission is to provide technical assistance, training, and information to strengthen the competitiveness of Idaho manufacturers and processors through product and process innovation. TechHelp partners with Boise State’s Colleges of Engineering and Business and Economics to provide customer-focused learning opportunities to transdisciplinary students at studio\Blu. Employment at and participation in studio\Blu gives university students the opportunity to gain real world experience with innovative Idaho researchers and companies and simultaneously exposes companies to talented young professionals who will soon enter the state’s workforce.

TechHelp Advisory Board

TechHelp’s Executive Director and its Advisory Board report to the Dean of the College of Business & Economics at Boise State. The TechHelp Advisory Board is made up of representatives from private industry, education, and government. TechHelp Board bylaws state that a full board consists of 9 - 11 members; at least 50% of whom represent manufacturing and two from the public sector. The TechHelp Executive Director appoints non-voting members with approval of the Board.

TechHelp Partners

TechHelp works with state and federal partners, listed below, to meet its mission of assisting Idaho manufacturers. The Center also works with local groups such as manufacturing associations and economic development organizations to stay abreast of community development issues and meet the needs of Idaho companies.
