DE1

Agency: Department of Education

Division: Department of Education

Statutory Authority: IC §33-125

The State Department of Education is an executive agency of the State Board of Education and is established pursuant to Section 33-125, Idaho Code. The State Superintendent of Public Instruction serves as the executive officer of the department and has the responsibility for carrying out policies, procedures, and duties authorized by law or established by the board for all elementary and secondary school matters. To align the budget publications with Section 33-125, Idaho Code, legislative publications will be displayed as the Department of Education starting in 2021; the agency was formally listed as the Superintendent of Public Instruction.

During the 2020 legislative session, the Legislature established and funded a second program in the department for student services. There are two appropriated programs in the department.

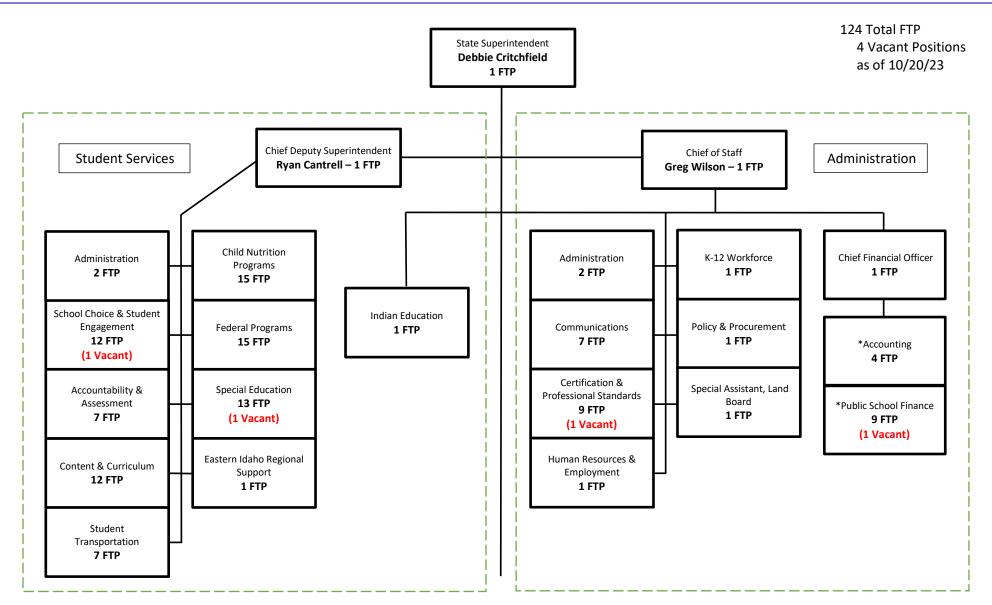

1) Administration Program: Includes the functions of Accounting, Certification and Professional Standards, Communications, Human Resources, and Public School Finance.

2) Student Services: Includes the functions of Assessment and Accountability, Child Nutrition Programs, Federal Programs, Indian Education, Instructional Support for Student-Centered Learning, Safety and Student Engagement, School Choice, Special Education, and Student Transportation.

Run Date: 10/20/23 3:59 PM

Sources and Uses:

The source of revenue is the collection of indirect cost on actual expenditures from federal grants. The rate applied is negotiated and approved by the U.S. Department of Education annually. The money in this account is used to cover the administrative costs of accounting/human resources in the department, as well as to pay for goods and services that would benefit the agency as a whole that are not directly chargeable to any one program.

Fund: Driver Training Account

Sources and Uses:

The Driver's Training account is established in §49-308, Idaho Code. The sources of fund revenue include the following: \$5.30 of each fee for a four-year and \$10.60 of each fee for an eight-year Class D driver's license, \$4.00 of each fee for ages 21 and under, \$1.33 of each fee charged for a one year driver's license ages under 17-20, and \$2.60 of each fee for a Class D instruction permit, duplicate Class D license or permit, or Class D license extension (§49-306 (8)(g) & (i), Idaho Code), and \$5.00 for each enrollee in a Class D driver's training course (§49-307, Idaho Code). The money in this account is used to cover the state administrative cost of the driver's training program and payments to school districts for reimbursement of driver's education programs.

Agency: Department of Education

Fund: Broadband Infrastructure Improvement Grant

Sources and Uses:

Section 33-910(1), Idaho Code, created the Broadband Infrastructure Improvement Grant (BIIG) Fund. Moneys from this fund are available to be distributed by the department to provide state matching funds for eligible special construction projects for high-speed broadband connections to entities that receive E-rate funding.

Fund: Federal (Grant)

Sources and Uses:

Revenue for this fund is from federal grants (Idaho Code 67-1917). The primary sources of revenue to this fund includes grants from the U.S. Department of Education and the U.S. Department of Agriculture. Funds are used for direct and indirect costs of administering federal grant related programs and trustee and benefit distributions to school districts, charter schools, child care sponsor and other entities that qualify for federal sub-awards.

The Summer Electronic Benefit Transfer (EBT) program provides meals for children when school is not in session. The United States Department of Agriculture (USDA) established it as a permanent program beginning in Summer 2024. While federal funding is available through the USDA, the additional 50% in state funding is required to fully implement the program. Program administration is split with the Department of Health and Welfare (DHW), and the funding in this request represents the State Department of Education (SDE) portion.

Explain the request and provide justification for the need.

The Summer Electronic Benefit Transfer (EBT) program provides meals for children when school is not in session. The United States Department of Agriculture (USDA) established it as a permanent program beginning in Summer 2024. While federal funding is available through the USDA, the additional 50% in state funding is required to fully implement the program. Program administration is split with the Department of Health and Welfare (DHW), and the funding in this request represents the State Department of Education (SDE) portion.

If a supplemental, what emergency is being addressed?

This program needs to be operational when the school year ends to provide a \$120 benefit to families with children who qualify for free and reduced-price meals for summer food purchases, allowing continuous nutrition services for children who would otherwise receive their meals at school.

Specify the authority in statute or rule that supports this request.

The Consolidated Appropriation Act of 2023: https://www.fns.usda.gov/pl-117-328.

Indicate existing base of PC, OE, and/or CO by source for this request.

There is no existing base funding for this program.

What resources are necessary to implement this request?

One position is needed to coordinate the program with local education agencies and ensure seamless transition between school-year nutrition services and the Summer EBT program. The staff member would be a liaison between the State Department of Education (SDE) and State Department of Health and Welfare (DHW) and would create content for schools to distribute telling families about the requirements of the program. The staff member will also help LEAs and the SDE with communications development, stay abreast of any regulation changes, and field calls that may go to the SDE rather than DHW.

Funding for Operating Expenditures includes phone charges, mail costs, printed materials and associated translation services, office space, and indirect costs. One-time funding for Capital Outlay is requested for computer and workstation equipment.

The SDE is also contributing \$373,100 through a Child Nutrition-funded USDA technology grant (Non-Competitive Technology Innovation or nTIG) to offset the costs of DHW's software buildout. The nTIG grant would otherwise be distributed to LEAs for technology needs.

List positions, pay grades, full/part-time status, benefits, terms of service.

Title: Summer EBT Program Specialist Salary: \$55,600 FT or PT: 1.00 full-time FTP Benefit Eligible: Yes Date of Hire: Upon passage of the supplemental appropriation Term Service: Permanent

This amount has been prorated to reflect one quarter of the fiscal year, which is the estimated availability of the supplemental appropriation.

Will staff be re-directed? If so, describe impact and show changes on org chart.

No. This is a new program and position.

Detail any current one-time or ongoing OE or CO and any other future costs.

There are no current costs. This is an ongoing program, and there are no anticipated additional costs.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The position costs are based on 80% of policy for pay grade L, which is comparable to other agency program specialist positions. Other costs were determined based on previous experience administering the Pandemic EBT program.

The ongoing amounts were reduced by 75% to reflect only needing the funding for the last quarter of FY 24 based on estimated passage of the supplemental appropriation.

Provide detail about the revenue assumptions supporting this request.

The 50% USDA funding is ongoing, and an ongoing General Fund appropriation is needed to fully implement this program.

Who is being served by this request and what is the impact if not funded?

If this is not funded, children who qualify for free or reduced-priced meals will not receive the \$120 benefit to provide resources to obtain healthy meals during the period that school is not in session.

Explain the request and provide justification for the need.

The agency requests to add a new Special Programs Appropriation Unit to the State Department of Education budget to include those programs and funds that are spent at the state level by the State Department of Education for the benefit of school districts and charter schools, and do not flow through to schools like other Public School budget items. Subsequent decision units move funding from other divisions to align with the plan to modernize state education funding.

The Idaho school funding formula was last rewritten in 1994. There have been ongoing discussions about updating the K-12 school funding formula the past several years. These efforts include a legislative interim committee, from 2016 to 2018, which culminated in draft legislation during the 2019 session. While small updates to the formula have been made, there have been no successful changes, with legislation in 2022 (to shift from average daily attendance to enrollment) failing.

While there are characteristics of the existing K-12 formula that still make sense for Idaho— with its many rural schools— there are many components that need updated, and there is consensus on many of these updates. Education looks different now than it did 30 years ago, and the opportunities available for students are much broader now. Education funding should be more student-centered and flexible, and there should be components that reflect funding core operations, while also paying for student growth and achievement, and building in additional funding for unique student populations.

During the summer of 2023, the State Department of Education (SDE) has worked with the Governor's Office, legislators, and K-12 stakeholders on this effort. These K-12 budget changes reflect this group's work so far and are a first step in updates to the formula. This work will need to continue through the beginning of the 2024 session.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-125 Idaho Constitution Article IX

Indicate existing base of PC, OE, and/or CO by source for this request.

N/A

What resources are necessary to implement this request?

No additional resources are needed to implement this request.

List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

Will staff be re-directed? If so, describe impact and show changes on org chart.

No.

Detail any current one-time or ongoing OE or CO and any other future costs.

N/A

Describe method of calculation (RFI, market cost, etc.) and contingencies.

N/A

Provide detail about the revenue assumptions supporting this request.

N/A

Who is being served by this request and what is the impact if not funded?

Idaho schools receive more than \$2.6 billion General Fund. There have been record increases in K-12 funding along with success in funding core operations through the expansion of the career ladder in 2020, health insurance funding in 2022, and additional funding for educator and classified staff salaries in 2023.

Now is the time to build new characteristics into the funding formula that have been discussed for many years, including a student-centered funding component in the budget, more flexibility for schools, and additional investments to pay for student growth and achievement in important areas like early literacy and college and career readiness.

If this request is not funded, these conversations will continue without this initial step forward in updating the formula for the first time since 1994.

Provide detail about the revenue assumptions supporting this request.

The request is contingent upon continued base funding.

Who is being served by this request and what is the impact if not funded?

Now is the time to build new characteristics into the funding formula that have been discussed for many years, including a student-centered funding component in the budget, more flexibility for schools, and additional investments to pay for student growth and achievement in important areas like early literacy and college and career readiness.

If this request is not funded, these conversations will continue without this initial step forward in updating the formula for the first time since 1994.

| | 27,000,000 | 0 | 0 | 27,000,000 |

Explain the request and provide justification for the need.

This decision unit moves funding from the former Children's Programs Division in the Public Schools Support Program to the new Special Programs Division in the State Department of Education. A commensurate reduction is shown in the Children's Programs Division. Since program funding is not directly passed through to schools and since Advanced Opportunities funding for non-public schools is already included in the State Department of Education (SDE) appropriation, this move brings all Advanced Opportunities funding under the SDE.

The agency requests this item retain its Public Education Stabilization Fund eligibility.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-125 Idaho Constitution Article IX Idaho Code 33-46 IDAPA 08.02.03, Section 106

Indicate existing base of PC, OE, and/or CO by source for this request.

Explain the request and provide justification for the need.

The agency requests funding to update the State Department of Education (SDE) office on the second floor of the Len B. Jordan Building in the Capitol Mall.

The agency's location is essential for the daily operations as it shares the building with the Office of the State Board of Education and the Division of Career-Technical Education. As Idaho's population has grown over the years, the number of employees needed to serve the students and families of Idaho has also increased; however, the space in which the SDE operates has not. The workstations and offices were last updated more than 15 years ago, and they do not efficiently and effectively serve the agency's current needs. Previous administrations have made minor changes to the workstations and floorplan. However, these changes only masked more significant issues.

The SDE has explored moving employees to other Capitol Mall or Chinden Campus locations. However, these spaces needed to be larger, or the site needed to be more practical. The prevailing solution was to reconfigure the existing space to serve the agency's work more efficiently and effectively. The SDE has engaged Erstad Architects to develop options for the current space that would:

1. Address safety needs in an older building where these were not contemplated fifty or so years ago. Additionally, this includes increased privacy and confidentiality for sensitive topics related to teachers, administrators, and students.

2. Allow for 120 employees to remain together in a single location within the Len B. Jordan Building, which is the most cost-efficient long-term solution.

- Update work areas to align with the State of Idaho Office Space Standards.
- 4. Develop a culture that encourages engagement and collaboration.
- 5. Improve employee health and well-being by creating a conducive work environment for productive and safe working conditions.

The SDE has been working with the Division of Public Works since early 2023 on office updates. This request is an evolution and continuation of those efforts.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-125

Indicate existing base of PC, OE, and/or CO by source for this request.

N/A

What resources are necessary to implement this request?

The SDE will continue to work with the Division of Public Works on office updates. No additional resources are necessary to implement this request.

List positions, pay grades, full/part-time status, benefits, terms of service.

Will staff be re-directed? If so, describe impact and show changes on org chart.

No

Detail any current one-time or ongoing OE or CO and any other future costs.

The SDE has put \$260,000 in one-time Capital Outlay toward office updates, which was transferred to the Division of Public Works in the spring of 2023 (see attachment 1).

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The requested funding is based on a quote from Erstad Architects (see attachment 2).

Provide detail about the revenue assumptions supporting this request.

This request assumes a state funding appropriation to support it.

Who is being served by this request and what is the impact if not funded?

By creating a safer work environment and making long overdue office updates, SDE employees, the public, and all who work at or frequent the SDE are served by this request. The SDE has needed updates and refurbishing for many years. Improvements have been deferred beyond the place where cobbling together fixes is possible. If this request is not funded, the SDE must consider additional square footage outside of the education building to carry out its charge, which will hamper efficiency in the agency.

| | 350,000 | 0 | 0 | 350,000 |

Explain the request and provide justification for the need.

The agency requests funding in the new Special Programs budget for a statewide student behavioral health and suicide prevention initiative that can be implemented in every high school and middle school. This request is the first policy action from the Superintendent as she works with her Student Behavioral Health working group that has been meeting since she took office. Most local education agencies are implementing these types of resources but are using federal funding or their general funds. In fact, the federal funds have provided an opportunity to pilot effective support for students and give us information for effective use of state dollars.

There continue to be challenges in student mental health with record reporting of trauma and suicidal ideation. Idaho youth are experiencing crisis level emotional distress related to stress, grief, substance abuse, anxiety, and depression. Schools are now put in the unfortunate and difficult position of addressing these issues to address school safety and student learning.

The main component of this initiative would be a suicide prevention and student wellness tool. We are looking at tools that provide proactive, evidence-based supports that meet students where they are (via text message) and engaging and empowering parents and appropriate personnel. There are tools that provide real-time information to schools with an option for parental participation. The SDE would also have access to data and analytics on academic effort, student well-being, and school culture. The request is to support district and school needs as they navigate a variety of products and services. Our school partners are desperate for help and leadership in this area.

In order to inform future policies and needs which may require additional dollars, we need data around the issue. We must understand the problems we are trying to solve in the long term. Effective tools that provide data to inform decision making is vital for local schools to understand their own behavioral health needs and later inform statewide needs and policy directions. Mostly importantly, our schools are looking to aid their students and families in this issue, and they need appropriate tools to do that.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-125

Indicate existing base of PC, OE, and/or CO by source for this request.

None

What resources are necessary to implement this request?

No additional resources are needed to implement this request.

List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

Will staff be re-directed? If so, describe impact and show changes on org chart.

Detail any current one-time or ongoing OE or CO and any other future costs.

No additional costs are anticipated.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The requested amount is based on a cost of \$1 per student.

Provide detail about the revenue assumptions supporting this request.

The request is contingent upon continued General Fund base funding.

Who is being served by this request and what is the impact if not funded?

There continues to be uneven efforts on student wellness and suicide prevention across local education agencies. The State Department of Education has a staff member who works on these issues, but there is no statewide student, parent, and school support for these well-being and suicide prevention resources, particularly one that utilizes technology and meets students proactively and directly. And frankly, these are local challenges that require state support and direction. We can't continue to ignore this issue and kick the can down the road. Considering the suicide rates for Idaho youth it is imperative to provide uniform statewide support on this important challenge of student mental health and suicide prevention. We prioritize student academic growth and achievement, but for many schools a large portion of their student oversight gets focused on behavioral health needs and assisting families to help their student.

| | 0 | 26,500 | 0 | 26,500 |

Explain the request and provide justification for the need.

The Certification and Professional Standards Division requests an increase in dedicated fund spending authority for Operating Expenditures to support Professional Standards Commission (PSC) initiatives, technical assistance to local education agencies, contract investigative services, and the educator preparation program review process.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-1205(3) - Certificate records and fees.

The fees shall be used by the State Department of Education for payment of the expenses of the Professional Standards Commission in performing its duties to sustain certification, program approvals, ethics reviews and standards reviews.

Indicate existing base of PC, OE, and/or CO by source for this request.

\$109,500 in existing Operating Expenditures spending authority.

What resources are necessary to implement this request?

The dedicated fund cash balance will accommodate this request.

List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

Will staff be re-directed? If so, describe impact and show changes on org chart.

No. Existing staff will continue to support the program.

Detail any current one-time or ongoing OE or CO and any other future costs.

\$109,500 ongoing Operating Expenditures

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The increased Operating Expenditures are based on a market cost estimate of anticipated travel costs; anticipated contracted investigative expenses; and anticipated costs of educator preparation program reviews based on prior years of review.

Provide detail about the revenue assumptions supporting this request.

This request is contingent upon a dedicated fund spending authority request. Assumptions include inflation, costs of travel, rate of contracted investigative services, and resumption of pre-COVID activities such as staff travel to provide technical assistance to local education agencies. The fiscal year 2020 budget for the Professional Standards Commission Operating Expenditures was \$150,450.

Who is being served by this request and what is the impact if not funded?

The Certification and Professional Standards Division of the SDE supports Idaho public schools and education professionals in the areas of certification and professional standards and supports the Professional Standards Commission (PSC) in its work to protect the students of Idaho and maintain the integrity of the education profession. Educators and local education agency (LEA) staff from around the state count on Certification and Professional Standards staff to provide excellent customer service in person, by phone, and via email to provide technical assistance, to process applications, to issue certificates, and to process code of ethics complaints and to contract investigative services on behalf of the PSC. Without these additional funds, staff cannot provide increased on-site assistance to LEAs, as requested.

The workload of the PSC has shifted in recent years due to changes in law and business practice. The PSC is now poised to use requested funds to create and implement LEA-level ethics resources for both certified and classified staff. These additional resources will help to protect the students of Idaho and to maintain the integrity of the education profession. Without these requested funds, the PSC will be hampered in its efforts to provide LEAs with ethical decision-making tools for certified and classified staff.

The PSC is required to pay for educator preparation program reviews in accordance with Section 33-1205(3), Idaho Code. Two factors have contributed to funds not being spent on these efforts since mid-fiscal year 2021. The pandemic halted any non-critical reviews, and Board and Department office-level process changes have halted educator preparation program reviews altogether. We anticipate that new processes will be in place for fiscal year 2025 that will require restoration of funding for program review payments.

| Full Time Positions | 1.00 | 0.00 | 0.00 | 1.00 |

Explain the request and provide justification for the need.

This request is to fund a superintendent-level regional support position for northern Idaho to complement the existing superintendent-level regional support staff member in eastern Idaho.

In the summer of 2023, the State Department of Education (SDE) repurposed an existing position to support schools in regions IV, V and VI. This local, expert-level support has been very well received by eastern Idaho schools. The SDE has received qualitative feedback that school leaders feel more connected and supported by the SDE due to the local staff member assigned to their area.

The SDE would like to replicate this support position for region I and II schools in northern Idaho.

The regional director will direct, guide, and support the work of superintendents and other school leaders in the northern part of the state. The regional director will oversee the mentorship program for North Idaho superintendents. The nature of the work necessitates employing of an existing/respected North Idaho superintendent for this role--someone who can relate, firsthand, to the work and has been an active and respected practitioner in North Idaho.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-125

Indicate existing base of PC, OE, and/or CO by source for this request.

None

What resources are necessary to implement this request?

Personnel Costs, Operating Expenditures, one-time Capital Outlay, and an additional FTP. To provide proof of concept, the SDE re-purposed an existing position in 2023. To provide additional local supports, the SDE is requesting a position to accomplish this work of supporting schools.

List positions, pay grades, full/part-time status, benefits, terms of service.

Position Title: Regional Director Pay Grade: non-classified (comparable to pay grade Q) Status: Full-time Benefit Eligibility: Eligible Anticipated Hire Date: July 2024 Terms of Service: Permanent

Will staff be re-directed? If so, describe impact and show changes on org chart.

No. This position will provide additional support to local education agencies in regions I and II.

Detail any current one-time or ongoing OE or CO and any other future costs.

\$3,000 in ongoing Operating Expenditures for travel and supplies; \$3,000 in one-time Capital Outlay for computer and workstation

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The salary is based on the current regional director position.

Provide detail about the revenue assumptions supporting this request.

This budget request assumes a General Fund appropriation to support it.

Who is being served by this request and what is the impact if not funded?

New superintendents and principals are the primary constituency served by this position. The regional director would support new leaders, particularly, in their first three years on the job to increase longevity, increase retention, and support local education agencies (LEAs) in the development of high-achieving practices.

The secondary constituency is experienced school leadership. The regional director would support the development of high-performing LEAs. This position would attend regional meetings and meet one-on-one with LEA leadership to ensure recent legislative changes are implemented, support the LEAs in practices related to student achievement, and answer frequently asked questions for school leaders needing guidance from the SDE.

If this request is not funded, the northern part of the state will continue to be underrepresented and under supported by the SDE.

| | ime Positions Total | 0 | 0 | 0 | 0 |

The agency requests 1.0 FTP, Personnel Costs, Operating Expenditures, and one-time Capital Outlay for an auditor position to help ensure funding is being used according to state laws and policies. This request was driven by a legislative audit finding that stated the State Department of Education should more closely monitor foundation payments made to school districts and charter schools.

With learning opportunities becoming more complex through virtual, CTE, and hybrid options, for example, it is important to ensure students are counted correctly. This position will help ensure the data collected from schools and the state funding that follows it is as accurate as possible.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-125

Indicate existing base of PC, OE, and/or CO by source for this request.

N/A

What resources are necessary to implement this request?

Personnel Costs, Operating Expenditures, one-time Capital Outlay, and an additional FTP.

List positions, pay grades, full/part-time status, benefits, terms of service.

Position Title: Auditor Pay Grade: non-classified (comparable to pay grade L) Status: Full-time Benefit Eligibility: Eligible

Anticipated Hire Date: July 2024 Terms of Service: Permanent

Will staff be re-directed? If so, describe impact and show changes on org chart.

No. This position will add a function to the SDE that does not currently exist. The position will report to the SDE Chief Financial Officer.

Detail any current one-time or ongoing OE or CO and any other future costs.

\$3,000 in ongoing Operating Expenditures for travel and supplies; \$3,000 in one-time Capital Outlay for computer and workstation.

It is anticipated that this position will travel across the state to provide support to districts and charters.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The pay rate is based on Legislative Services Office audit staff pay rates. It is 80% of policy for pay grade L.

Provide detail about the revenue assumptions supporting this request.

This budget request assumes a General Fund appropriation to support it.

Who is being served by this request and what is the impact if not funded?

If this request is not funded, the agency will continue to support local education agencies (LEAs) as best it can without an auditor to assist LEAs in their efforts to comply with state policies and regulations.

Explain the request and provide justification for the need.

The State Department of Education (SDE) is transferring the existing Indian Education Coordinator to the Office of the State Board of Education (OSBE). This will be a net-zero FTE and General Fund transfer from the SDE to OSBE, shifting 1.0 FTP, \$121,300 in Personnel Costs, and \$3,000 in Operating Expenditures.

The current SDE Indian Education Coordinator serves as a liaison between five Idaho tribes and the State Board of Education (SBOE) and supports the Idaho Indian Education Committee, which is a standing committee established by the SBOE. The role of this committee is to act as an advisory body to the SBOE and serve as a link between the five Idaho tribes, with the mission of eliminating the academic achievement gap for tribal K through 20 students. The committee's work is guided by a five-year strategic plan, which is approved by the SBOE.

Since January 2023, there have been ongoing conversations about transitioning duties and staff that better align the respective missions of the SDE and OSBE. During the 2023 session, three information technology positions were transferred from the SDE to OSBE to join the team of 19 existing information technology positions. This transfer aligns with the mission and goals of the SBOE, both as the State Education Agency, with oversight over the entire K-20 system, and its standing Idaho Indian Education Committee.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

State Board of Education Policy I.P.: https://boardofed.idaho.gov/board-policies-rules/board-policies/general-governing-policies-procedures-section-i/indian-education-committee/

Indicate existing base of PC, OE, and/or CO by source for this request.

\$121,300 in Personnel Costs.

What resources are necessary to implement this request?

General Fund Personnel Costs.

List positions, pay grades, full/part-time status, benefits, terms of service.

Position Title: Indian Education Coordinator Pay Grade: Non-classified (comparable to pay grade M) Status: Full-time Benefit Eligibility: Eligible Anticipated Transfer Date: July 2024 Terms of Service: Permanent

Will staff be re-directed? If so, describe impact and show changes on org chart.

This position will be transferred from the SDE to OSBE.

Detail any current one-time or ongoing OE or CO and any other future costs.

\$3,000 in ongoing Operating Expenditures for travel costs.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

This is the existing base salary.

Provide detail about the revenue assumptions supporting this request.

This is a net-zero transfer between agencies.

Who is being served by this request and what is the impact if not funded?

This role will continue to serve as a liaison between the five Idaho tribes and the State Board of Education, advocating for Idaho tribal students and supporting the Idaho Indian Education Committee. If approved, this transfer will enhance collaboration between OSBE staff who work on K-20 policy for at-risk student populations and have oversight and governance over local education agencies and Idaho colleges and universities. If not approved, these efforts to support Idaho tribal students will continue to be divided between agencies.

Explain the request and provide justification for the need.

The staff that administers broadband funding was transferred to the Office of the State Board of Education (OSBE) in FY 2024, and this request completes the full transfer of the broadband program to OSBE.

The Broadband Program makes state resources available to support Idaho's E-rate eligible entities with technical, E-rate, security, contracting and procurement guidance, and funding distribution in accordance with I.C. 33-5602. The broadband program reimburses Idaho's E-rate eligible entities for the remaining portion of eligible broadband costs after the E-rate discount is applied.

Reimbursement is administered by the broadband program staff under the guidance of the Education Opportunity Resource Committee. The broadband program staff compiles and analyzes broadband utilization data from entities receiving reimbursement for broadband services. This analysis is used to forecast budget requests and help entities determine their broadband needs. The broadband staff also provide technical support to schools.

The Broadband Infrastructure Improvement Grant (BIIG) provides matching funds for up to 10% of eligible special construction projects to provide new fiber infrastructure to E-rate eligible entities. Leveraging the Special Construction provisions of E-rate greatly reduces the required state and local investment required to build out critical infrastructure.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 33-5601 - 33-5605 Idaho Code 33-910

Indicate existing base of PC, OE, and/or CO by source for this request.

There is no existing PC, OE, or CO funding for this request. The two positions and associated operating expenditures were transferred to the Office of the State Board of Education in the FY 2024 appropriation.

What resources are necessary to implement this request?

Existing staff at the Office of the State Board of Education will manage the funding associated with this request under the guidance of the Education Opportunity Resource Committee.

List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

Will staff be re-directed? If so, describe impact and show changes on org chart.

N/A

Detail any current one-time or ongoing OE or CO and any other future costs.

None.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

This is a net-zero transfer of the base budget amounts between the State Department of Education and Office of the State Board of Education.

Provide detail about the revenue assumptions supporting this request.

The program will operate within the current base budget and may evaluate the need for additional funding changes in future budget requests if needed.

There are two sources of funding to be transferred: \$3,430,000 for broadband reimbursement under Idaho Code 33-5601 - 33-5605 and \$1,900,000 for BIIG.

Who is being served by this request and what is the impact if not funded?

The broadband program funds provide funding available to all Idaho public schools grades K through 12, the Idaho Digital Learning Academy, the Idaho Department of Juvenile Corrections' education programs and the school for the Deaf and the Blind. BIIG grant funds are available to all Erate eligible entities including Idaho public schools grades K through 12, the Idaho Digital Learning Academy, the Idaho Department of Juvenile Corrections education programs, the School for the Deaf and the Blind and the Idaho public libraries. This request places the entire broadband program in the Office of the State Board of Education where the program staff is housed and where it more efficiently belongs. If this decision unit is not appropriated, the State Department of Education will continue to distribute the broadband funding in collaboration with the Office of the State Board of Education.

Based on Budget Devlopment Manual estimate guidelines

Provide detail about the revenue assumptions supporting this request.

This budget request assumes a one-time General Fund appropriation to support it.

Who is being served by this request and what is the impact if not funded?

Purchasing vehicles for the regional transportation specialists is a more cost-effective option than paying for rental cars each time the specialists need to travel. Many hours are lost when a regional specialist is obtaining a rental car and traveling to and from the rental car facility. Purchased vehicles also provide consistency in cost as opposed to rental car rates and mileage reimbursement rates. If this request is not funded, the SDE and State of Idaho will continue to lose time and money that could otherwise be put toward serving schools.

| | 1,500,000 | 0 | 0 | 1,500,000 |

Explain the request and provide justification for the need.

The agency requests funding in the new Special Programs Division to address the growing demand for professional development to support local education agencies. Specific areas of need and proposed uses include:

Maintaining current programs and expanding services to more districts/charters, schools, and educators; targeting supports for new and alternatively certificated teachers and staff; and providing training and facilitating the implementation of Professional Learning Communities (PLCs).

This funding increase will enable the State Department of Education (SDE) to increase the number of content specialists in each region, offer targeted workshops, supports, and materials based on regionally identified needs, and support the implementation of the research-based, best practice of PLCs.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Senate Bill 1209 (2023) appropriation intent language mandates the process for professional development programs: SECTION 5. PROFESSIONAL DEVELOPMENT. Of the moneys appropriated in Section 1 of this act, the State Department of Education may expend up to \$4,500,000 for professional development and teacher training and to track usage and effectiveness of professional development efforts at the state and local levels.

Indicate existing base of PC, OE, and/or CO by source for this request.

Increased Funding:

Maintaining current programs and expanding existing services to more districts/charters, schools, and staff.

Current - SDE professional development programs provide job-embedded professional development to Idaho schools through programs such as Regional Math Specialists, Idaho Science Coaches, SMART coaches, regional workshops, and virtual professional development courses and conferences. In addition, these content specialists work with the SDE Content and Curriculum Coordinators to create open educational resources to support all Idaho teachers.

Requested - Funding would provide expanded service through additional coaches across the state, increased regional workshops and inperson/virtual opportunities, and development of support materials.

Proposed expenditure - \$300,000

Targeting supports for new and alternative certificated teachers and staff.

Current - Idaho schools continue to experience a teacher shortage and a significant number of educators on alternate or emergency certifications. Often, this group of educators does not have the opportunity to participate in training before entering the classroom, including essential topics such as instruction, classroom management, state standard implementation, and assessment.

Requested - Funding would provide opportunities for mentoring and resources to support districts and administrators in meeting the needs of teachers and fulfilling the state requirements for mentoring. Specific expenditures may include contracting with mentors in 6 regions, creating resources to support the framework of best practices, facilitating networks, and providing training (in-person and virtual) specific to new

practitioners.

Proposed Expenditure - \$200,000

Providing training and facilitating the implementation of Professional Learning Communities (PLCs).

John Hattie's world-renowned body of research asserts that the greatest single influence on student achievement is Collective Teacher Efficacy, and there is no greater way to cultivate this accelerated growth than through Professional Learning Community (PLC) practices and processes.

Current - In the 2023-2024 school year, through PD funding, the SDE is partnering with 3 districts to support implementation of PLCs, including embedded support, training, and materials. The SDE also provides limited PD through the Idaho Principal Network (IPN) and Idaho Superintendent Network (SPN) programs. Lastly, the SDE is creating a Toolkit for use by Idaho schools engaging in the PLC work.

Requested - Funding would provide for creation of an Idaho PLC network, development of model schools across the state, a large training event(s), additional school partnerships, and regional workshops throughout the state. Full implementation is a multi-year, multi-faceted endeavor and without additional funding onboarding additional schools will not be possible.

Proposed Expenditure - \$1,000,000

Existing Base:

Current Program Costs

SMART (ELA reading coaches, regional workshops,) - \$1,925,956

Contracted Personnel - \$1,543,400

Operating Expenses - \$382,556

Regional Math Centers (RMC) – \$488,986 (Total RMC Program cost is \$2,306,786. \$1,817,800 funding through Idaho Statute 33-1627, Math Initiative)

14 full-time coaches providing coaching, professional development, TMT courses, etc.

Additional Math Supports (High School Math Transitions and Trainings) - \$200,000

Idaho Science Coaches and PD - \$819,000

Contracted personnel - \$625,000

Operating Expenses - \$194,000

Professional Learning Communities (PLCs) - \$200,000

Additional State-wide supports through Content and Curriculum programs (i.e., Arts, Humanities, 6-12 ELA, Social Studies, PE, Gifted and Talented, Health, Standards review and implementation, curricular review support, etc.) - \$850,000

What resources are necessary to implement this request?

SDE Directors and Coordinators will lead these projects and oversee contractors as already defined in their job descriptions. This request does not require any additional positions added to the Content and Curriculum Department. This request will provide our present coordinators with funds to enhance their present programs. Increases in direct support will occur through contracted services.

List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

Will staff be re-directed? If so, describe impact and show changes on org chart.

No

Detail any current one-time or ongoing OE or CO and any other future costs.

No additional costs are anticipated.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The method of calculation is described above.

Provide detail about the revenue assumptions supporting this request.

Assumptions inherent in this request include:

maintenance of the FY24 positions and funding for the SDE;

the Math Initiative budget remaining the same as FY24,

the intent requested funding will be ongoing as many of the programs the funding supports are multi-year. Progress and achievement will be significantly impacted if the funding fluctuates.

Who is being served by this request and what is the impact if not funded?

This funding request impacts K-12 students, through the support of superintendents, district level directors, principals, teachers, and support staff. Many of the programs supported through this funding are "opt-in" models, meaning that those who would like to participate can do so.

If this request is not funded, the RMCs, Idaho Science Coaches, and SMART program will continue to support teachers in each region, but with limited capacity. Presently the district, school, and teacher requests are greater than the programs have the capacity to serve.

Without funding, support for PLC training and implementation will be in jeopardy.

| | 150,000 | 0 | 0 | 150,000 |

Explain the request and provide justification for the need.

The agency requests funding to promote an effective, efficient, and collaborative standards reviews. The State Department of Education will bring participants together, in-person, to guide the process. Over the last several years, standards reviews were conducted remotely, and as such, costs were lower. Additionally, funding is not specifically allocated to ensure the Standards Review process can be fulfilled as required.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

IDAPA 08.02.03.128.01

IDAPA 08.02.03.004.01

State Board of Education Policy: Section IV Subsection B

9a. Content Standards

The Idaho Content Standards articulate the minimum knowledge a student is expected to know and be able to use within a content (subject) area at specific grade levels. Content standards are reviewed and updated on a rotating basis in relation to the curricular materials adoption schedule. but may be updated more frequently if an area is identified as needing to be updated in advance of that schedule. Content standards review will be scheduled such that the content standard is reviewed in the year prior to the scheduled curricular materials review. At a minimum all content areas, including those without corresponding curricular materials, will be reviewed every six (6) years and notification will be made to the Office of the State Board of Education of the review and if the review will result in amendments to the standard or if it was determined that no amendments are Indicate existing base of PC, OE, and/or CO by source for this request.

N/A

What resources are necessary to implement this request?

SDE directors and coordinators will lead the standards review planning and process as defined in their existing job descriptions. This request does not require any additional positions added to the Content and Curriculum Department, nor the SDE. This request will provide coordinators with the funding required to bring highly qualified participants to in-person meetings throughout the standards review process.

Historically SDE, and specifically the Conent and Curriculum Division, have allocated funds from their operating budget or, as a last resort, Professional Development monies, as there are funds dedicated to this. Neither of these funding sources are appropriate for continued use to fund standards reviews.

List positions, pay grades, full/part-time status, benefits, terms of service.

N/A

Will staff be re-directed? If so, describe impact and show changes on org chart.

No

Detail any current one-time or ongoing OE or CO and any other future costs.

No additional costs are anticipated.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

Estimated yearly costs for Standards Review:

Committee member compensation - \$60,000

Committee Travel - \$40,000

Review and revision of curricular rubric - \$20,000

Supplies, platform, venue, etc. - \$30,000

Every year standards are reviewed based on a five-to-six-year cycle.

In FY 24, more than 100 committee members were needed to meet the committee compositions guidelines and to ensure subject matter experts for all contents being reviewed. It is a priority to secure representation from all regions across the state for each content review committee. Committee members receive \$500 compensation for their independent, virtual, and in-person work in the review process. (Estimated at \$60,000)

To ensure regional representation, we cover the travel cost for all committee members to attend the two-day, in-person portion of the review. Travel cost for those in the Treasure Valley is not provided. (Estimated at \$40,000)

Once standards are drafted, they must be posted for public comment. To ensure accessibility, this often necessitates contracted services to prepare the hundreds of pages of documents. Then, once finalized, the process must be completed again. New standards also require a revised rubric for the subsequent curricular review, which can incur additional costs also. (Estimated at \$20,000)

For the two-day, in-person meetings, meeting rooms, meals, supplies are necessary and provided. Depending on the review year, the number of two-day meetings vary. For FY 24, four two-day, in-person meetings were necessary.

The requested amount is ongoing as standards reviews occur every year on a rotating basis.

Standards reviews are an in-depth analysis, discussion, and collaboration to establish the essential learning expected of all students in Idaho. While facilitated online when necessary, the process, thoroughness, and outcomes are optimal when experts are able to gather together for the work. It has also been seen that in-person collaboration meetings are more efficient overall.

Provide detail about the revenue assumptions supporting this request.

The request is contingent upon a General Fund appropriation.

Who is being served by this request and what is the impact if not funded?

Ensuring Idaho Content Standards are high-quality and rigorously reviewed is imperative in the success of our Idaho students. Practitioner and stakeholder input, to ensure Idaho values and priorities are reflected in Idaho standards is of the utmost importance. Without funding to ensure active stakeholder input, our Idaho standards may not receive the rigorous and active review needed to ensure our Idaho values and priorities are reflected in our Idaho content Standards.

If this request is not funded, the ability to produce the best possible standards, on the expected cycle, will be hindered.

Explain the request and provide justification for the need.

The agency requests one-time spending authority for administrative costs related to the Farm to School Grant, which was awarded as part of the COVID relief funding package.

For the first time, the United States Department of Agriculture empowered states with \$60 million in non-competitive grants to develop stronger and sustainable Farm to School programs over four years. This action helps more children nationwide eat healthy, homegrown foods.

Each state was allocated funding for a Farm to School grant to develop school resources to teach children about where their food comes from. Idaho's total award is \$761,595.

The Farm to School program increases the amount of locally produced foods served through child nutrition programs, while also educating children about how their foods are harvested and made. Various child nutrition operators can participate in the program, from states and tribal nations to schools and community organizations.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

American Rescue Plan Act.

Indicate existing base of PC, OE, and/or CO by source for this request.

This request is for one-time funds in FY 2025.

What resources are necessary to implement this request?

Administrative and programmatic resources are necessary to support LEAs.

List positions, pay grades, full/part-time status, benefits, terms of service.

The Department has one position dedicated to this project.

Will staff be re-directed? If so, describe impact and show changes on org chart.

Existing staff are carrying out the provisions of this program.

Detail any current one-time or ongoing OE or CO and any other future costs.

This request is for one-time funds in FY 2025.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

N/A

Provide detail about the revenue assumptions supporting this request.

Revenues are provided through the federal government as part of the American Rescue Plan Act. The program will end when the funding ends.

Who is being served by this request and what is the impact if not funded?

Idaho students and educators are served by this request. If spending authority is not appropriated, the State Department of Education will be unable to use this funding and carry out this program.

Explain the request and provide justification for the need.

This PC request for \$150,000 in one-time funds is for continued administration of the ESSER grant through September 30, 2024. States have requirements to train and support LEAs in using the funds, monitoring LEAs, state level and LEA level reporting, and maintenance of effort and maintenance of equity requirements.

This request also includes \$1,245,800 in one-time funds in OE to provide professional development, purchasing and configuring of data collection software and to offset the cost of monitoring LEAs in the use of their funds.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

ARP ESSER, Section 2001 and Section 2004.

Indicate existing base of PC, OE, and/or CO by source for this request.

This request is for one-time funds for FY 2025. In FY 2024, JFAC appropriated one-time funds of \$290,000 in OE and \$343,000 in PC.

What resources are necessary to implement this request?

Administrative resources are required to support LEAs in implementing the ESSER funds.

List positions, pay grades, full/part-time status, benefits, terms of service.

The Department currently has 3.35 FTP associated with this work. Three are coordinators, one of which is a dedicated data collection specialist. The other .35 FTP is spread across other positions that provide various levels of support.

Will staff be re-directed? If so, describe impact and show changes on org chart.

As required by federal law, staff will record all time and effort associated with ESSER. Existing staff will use this funding source to carry out fiscal and program work.

Detail any current one-time or ongoing OE or CO and any other future costs.

This request is for one-time funds for FY 2025. In FY 2024, JFAC appropriated one-time funds of \$290,000 in OE and \$343,000 in PC.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

N/A

Provide detail about the revenue assumptions supporting this request.

Revenues are provided under ARP ESSER, Section 2001.

Who is being served by this request and what is the impact if not funded?

Idaho students and educators are being served by this request. These funds allow the Department to provide support to LEAs in using their funds to implement COVID-19 related activities and requirements related to academics and social, emotional, and mental health needs.

Explain the request and provide justification for the need.

This appropriation request is one-time funds of \$537,800 for continued administration of the ARP Homeless Children and Youth (ARP-HCY) grant. The appropriation of personnel and operating costs supports LEAs through a comprehensive plan to increase capacity building, provide subgrants for coalition facilitation with Idaho Housing and Finance Regional Housing Coalition, provide mini grants to LEAs to develop and implement community schools for wrap-around support, and to contract with six regional coaches to increase identification, provide training and monitor program progress, as well as to implement reengagement activities addressing chronic absenteeism, graduation plans and mentoring, credit recovery, and career/college planning and career and technical education. The State Department of Education also has a continued request for flow-through funds to LEA's in the Public Schools budget.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

ARP ESSER 2001, Section (b)(1) and 34 CFR Chapter II RIN 1801-AA24, July 9, 2021, Federal Register Vol. 86, No. 129, consistent with section 722 (e)(2) of the McKinney-Vento Act.

Indicate existing base of PC, OE, and/or CO by source for this request.

This request is for one-time funds in FY 2025. In FY 2024, JFAC appropriated one-time funds of \$246,000 in OE and \$39,000 in PC.

What resources are necessary to implement this request?

Administrative and programmatic resources are necessary to support LEAs in implementing the ARP-HCY funds.

List positions, pay grades, full/part-time status, benefits, terms of service.

The Department has about .5 FTP allocated to this work, primarily done by our Homeless Coordinator. We estimate a similar allocation of resources for the life of the grant.

Will staff be re-directed? If so, describe impact and show changes on org chart.

As required by federal law, staff will record all time and effort associated with ARP-HCY support activities. Existing staff will use this funding source to carry out fiscal and program work.

Detail any current one-time or ongoing OE or CO and any other future costs.

This request is for one-time funds in FY 2025. In FY 2024, JFAC appropriated one-time funds of \$246,000 in OE and \$39,000 in PC.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

N/A

Provide detail about the revenue assumptions supporting this request.

Revenues are provided under ARP Education for Homeless Children and Youth (ARP-HCY), Section (b)(1) and Federal Register Vol. 86, No 129 consistent with section 722 (e)(2) of the McKinney-Vento Act.

Who is being served by this request and what is the impact if not funded?

Students identified as homeless are one of the focus subgroups under ESSER. These funds allow the Department to provide support to LEAs in using their funds to implement supports for students impacted by COVID-19. An assurance from Idaho submitted to USDE on July 20, 2021, assured that Idaho will submit an ARP Homeless plan by September 7, 2021, that addresses "how the SEA will use up to 25 percent of funds awarded under ARP Homeless II for state-level activities to provide training, technical assistance, capacity-building, and engagement at the state and LEA levels, including support to LEAs to plan for and provide wrap-around services, in collaboration with state and local agencies" and "the extent to which the SEA will use its state-level activities funds to award subgrants or contracts to community-based organizations that are well-positioned to identify children and youth experiencing homelessness in historically underserved populations" and how the SEA will encourage LEAs to award contracts to community-based organizations to help identify and support historically underserved populations experiencing homelessness.

Explain the request and provide justification for the need.

The funds are to provide emergency assistance to non-public schools from the American Rescue Plan (ARP) Act. Under ARP, the State Education Agency is required to provide services to the eligible non-public schools. The four eligible schools continue to be impacted by the COVID pandemic and subsequent learning challenges similar to public schools. The ARP-EANS funds are being used to provide services and assistance to address the education disruptions for students. In order to be eligible, the non-public schools must have significant low-income enrollment and be the most impacted by the COVID-19 emergency.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

American Rescue Plan, Section 2002

Indicate existing base of PC, OE, and/or CO by source for this request.

This request is for one-time funds for FY 2025. In FY 2024, JFAC appropriated one-time funds of \$49,000 in PC and \$1,200,000 in OE which is used to provide direct services to the private schools. Allocations to schools are based on their enrollment, expressed needs, and requested assistance.

What resources are necessary to implement this request?

Existing staff/personnel, contractors for services and assistance, administrative supplies and travel costs.

List positions, pay grades, full/part-time status, benefits, terms of service.

Portions of two existing staff administer this program. The staff are tracking their time and effort as required by federal law.

Will staff be re-directed? If so, describe impact and show changes on org chart.

N/A

Detail any current one-time or ongoing OE or CO and any other future costs.

Program Request by Decision Unit

Services and assistance provided by contractors and other administrative costs will be requested as one-time each year for the duration of the grant. This may include capital outlay dependent on expressed needs from the non-public schools as outlined in their applications. In FY 2024, JFAC appropriated one-time funds of \$49,000 in PC and \$1,200,000 in OE which is used to provide direct services to the private schools.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The Department is implementing its procurement process in obtaining contractors and direct services to the non-public schools.

Provide detail about the revenue assumptions supporting this request.

Funding is provided by the U.S. Department of Education. Total program funds available are approximately \$21,000,000. Funds not identified and used to support non-public schools will be returned to the Governor's office.

Who is being served by this request and what is the impact if not funded?

Idaho's non-public schools with significant low-income enrollment impacted by the COVID-19 emergency will be served with these funds. If spending authority is not granted, the non-public school students will be further impacted.

Program Request by Decision Unit

Explain the request and provide justification for the need.

The Summer Electronic Benefit Transfer (EBT) program provides meals for children when school is not in session. The United States Department of Agriculture (USDA) established it as a permanent program beginning in Summer 2024. While federal funding is available through the USDA, the additional 50% in state funding is required to fully implement the program. Program administration is split with the Department of Health and Welfare (DHW), and the funding in this request represents the State Department of Education (SDE) portion.

If a supplemental, what emergency is being addressed?

Specify the authority in statute or rule that supports this request.

The Consolidated Appropriation Act of 2023: https://www.fns.usda.gov/pl-117-328.

Indicate existing base of PC, OE, and/or CO by source for this request.

There is no existing base funding for this program.

What resources are necessary to implement this request?

One position is needed to coordinate the program with local education agencies and ensure seamless transition between school-year nutrition services and the Summer EBT program. The staff member would be a liaison between the State Department of Education (SDE) and State Department of Health and Welfare (DHW) and would create content for schools to distribute telling families about the requirements of the program. The staff member will also help LEAs and the SDE with communications development, stay abreast of any regulation changes, and field calls that may go to the SDE rather than DHW.

Funding for Operating Expenditures includes phone charges, mail costs, printed materials and associated translation services, office space, and indirect costs. One-time funding for Capital Outlay is requested for computer and workstation equipment.

The SDE is also contributing \$373,100 through a Child Nutrition-funded USDA technology grant (Non-Competitive Technology Innovation or nTIG) to offset the costs of DHW's software buildout. The nTIG grant would otherwise be distributed to LEAs for technology needs.

List positions, pay grades, full/part-time status, benefits, terms of service.

Title: Summer EBT Program Specialist Salary: \$55,600 FT/PT: 1.00 full-time FTP Benefit Eligible: Yes Date of Hire: Upon passage of the supplemental appropriation Term of Service: Permanent

Will staff be re-directed? If so, describe impact and show changes on org chart.

No. This is a new program and position.

Detail any current one-time or ongoing OE or CO and any other future costs.

There are no current costs. This is an ongoing program, and there are no anticipated additional costs.

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The position costs are based on 80% of policy for pay grade L, which is comparable to other agency program specialist positions. Other costs were determined based on previous experience administering the Pandemic EBT program.

Provide detail about the revenue assumptions supporting this request.

The 50% USDA funding is ongoing, and an ongoing General Fund appropriation is needed to fully implement this program.

Who is being served by this request and what is the impact if not funded?

If this is not funded, children who qualify for free or reduced-priced meals will not receive the \$120 benefit to provide resources to obtain healthy meals during the period that school is not in session.
