Division Description

Request for Fiscal Year: 2025

Agency: Idaho Wolf Depredation Control Board

197

Division: Wolf Control Board

ZZ6

Statutory Authority: 22-5305
SB 1211 (2021)

The Legislature passed H470 of 2014 to recognize that additional financial resources were needed to continue the implementation of Idaho's wolf management plan. It established a five-member Wolf Depredation Control Board in the Office of the Governor and created a set of new continuously appropriated funds and subaccounts to be administered by the Department of Agriculture. H470 established that fees from sportsmen and the livestock industry be allocated into the subaccounts with the expectation that the General Fund would also contribute. The responsibility of the Wolf Control Board is to allocate the moneys for control actions approved by the Idaho Fish and Game Commission. The board has a cooperative services agreement and a work plan with Wildlife Services (Section 22-5301, Idaho Code). H470 was set to have Section 22-5301 expire on June 30, 2019, however S1039 of 2019 removed the sunset from statute.

The Wolf Depredation Control Program acts as a conduit to pass moneys from the state, sportsmen, and livestock producers through the Wolf Depredation Control Board to the Wildlife Services Program under the United States Department of Agriculture Animal and Plant Health Inspection Service. The Fish and Game Commission requires that expenditures from the Fish and Game Transfer Subaccount be spent for the benefit of wild ungulates (hooved animals).

Starting in FY 2021, the Legislature provided a base budget of \$392,000 from the General Fund in addition to the dedicated transfers that have been treated as onetime to the continuously appropriated funds.

Fund: Wolf Control Fund: Wcf-Livestock Subaccount

16301

Sources and Uses:

The livestock sub account collects revenues from two sources. 1) Sheep and Goat Health Board and Livestock Industry. The funding from the livestock industry is from an additional tax applied to brand registration and the sheep industry is from an additional tax to wool sales. The revenues from these sources are used to pay contracts for services related to wolf depredation. These funds are used first to pay for these services for any costs related to livestock and sheep depredation cases

Fund: Wolf Control Fund: Wcf-Fish& Game Transfer Sub

16302

Sources and Uses:

The sources of funding for this sub account come from Fish and Game. The level of funding is a direct match to the revenues collected by the livestock and sheep sub account from the prior year. The transfer occurs in July following the fiscal year end. These funds are used to pay for costs related to wolf depredation related to the ungulate population only. These funds are not used for any livestock cases and is the first source of funds to be used for any ungulate related costs.

Part I – Agency Profile

Agency Overview

The Idaho Wolf Depredation Control Board (IWDCB) was created in 2014 within the Office of the Governor. The IWDCB is tasked with “directing and managing funds” for the purpose of wolf depredation control within the State of Idaho. IWDCB funding reflects a partnership among livestock owners, sportsmen, and the General Fund. These funds are made available to eligible partners that implement wolf depredation control actions within Idaho according to law. They are not used to compensate livestock owners for losses due to wolf depredations.

Wolf management is under authority of the Idaho Fish and Game Commission and Idaho Department of Fish and Game (IDFG). The IWDCB contracts with USDA Wildlife Services which investigates livestock depredations. The IWDCB also contracts with IDFG to perform work related to ungulate depredation actions. Upon receiving confirmation of wolves causing the depredation, IDFG will issue a lethal removal order to Wildlife Services for wolves responsible for the depredations. Wildlife Services carries out these IDFG orders and reports back to both IDFG and IWDCB. In summary, the IWDCB was created to administer funding so the level of wolf depredation control service in Idaho functionally remained unchanged following delisting and loss of federal funding. The IWDCB exercises no oversight authority over the Idaho Fish and Game Commission or the IDFG as it relates to authorizing or implementing depredation activities in Idaho.

Core Functions/Idaho Code

Fund Administration: IWDCB is responsible for the administration of the wolf control fund. The management of the fund includes setting procedures and standards for payment from the fund, entering into contracts and agreements with eligible partners.

Cooperative Service Agreements: The IWDCB has a Cooperative Service Agreement with Wildlife Services which extends through June 30, 2025. The IWDCB and Wildlife Services also have a Work Plan for the current fiscal year. The purpose of the agreement is to facilitate the authorized expenditure of IWDCB funding to be used by Wildlife Services to conduct a program for the management and control of depredating gray wolves in Idaho for the protection of livestock and wild ungulates, utilizing integrated wildlife damage management methodologies.

The Board signed a Work/Financial Cooperative Agreement with the Idaho Department of Fish and Game to provide services to protect elk from unacceptable predation levels caused by gray wolves in areas where populations are not meeting management objectives and wolf predation is a significant contributor to overall mortality. The Board has a revised agreement with ISDA to provide fiscal services to the Board.
