Explain the request and provide justification for the need.

Over the last three fiscal years, the Division has experienced a significant turnover in key positions, primarily trades inspectors for plumbing, HVAC, electrical, building, elevator safety, and logging safety. Inspectors play an important role in regards to the mission of the division. In fiscal year 2024, inspectors conducted 144,801 inspections statewide.

Several of the trades programs within the Bureau of Building, Construction, and Real Estate have a turnover rate as high as 67% resulting in increased workloads for staff, as well as significant costs associated with frequent onboarding and training for new hires. Exit interviews revealed that the primary reason for departure was pay, followed by workload. To address the turnover and help to improve retention, the Division has a multi-phased approach to increasing inspector pay. The bureau implemented Phase 1 of its inspector pay adjustment during FY25 within its existing appropriation and is requesting the additional spending authority to be able to implement Phase 2.

If a supplemental, what emergency is being addressed?

N/A

Specify the authority in statute or rule that supports this request.

Idaho Code 54-5006(2) HVAC inspectors Idaho Code 54-1019 Electrical inspectors Idaho Code 54-2607(c) Plumbing inspectors Idaho Code 67-2506 Logging

Idaho Code 67-2604((h) Elevator & Building

Indicate existing base of PC, OE, and/or CO by source for this request.

The Bureau of Building, Construction, and Real Estate has a base budget of \$16,015,900 in Personnel Costs and \$5,007,200 in Operating Expenses.

What resources are necessary to implement this request?

N/A

List positions, pay grades, full/part-time status, benefits, terms of service.

See attached inspector pay spreadsheet.

Will staff be re-directed? If so, describe impact and show changes on org chart.

No staff will be redirected within this request.

Detail any current one-time or ongoing OE or CO and any other future costs.

N/A

Describe method of calculation (RFI, market cost, etc.) and contingencies.

The Division assessed the turnover data for inspectors by program and by year to determine the need for pay increases. Additionally, data was collected to show the starting salaries for inspectors in the public sector such as cities, and in the private sector, to compare against the Division's starting salaries for these positions.

Provide detail about the revenue assumptions supporting this request.

N/A

Who is being served by this request and what is the impact if not funded?

This request will not only impact the inspectors with the pay increase, but will also impact electrical, HVAC, plumbing contractors, building contractors, Idaho Logging companies, and Elevator installers and manufacturers. This request allows the Division to retain highly qualified inspectors which in turn results in the completion of inspections in a timely manner. Overall, this supports Idaho industry and maintains the Division's mission to continue implementing solid customer service. If this request is not funded, the Division will continue to see high turnover and have challenges with recruitment and retention for the inspector positions. Without quality inspectors on staff, inspections times could increase and slow the pace of projects in Idaho.

Identify the measure/goal/priority this will improve in the strat plan or PMR.

This request address' the Division's Strategic Goal 2: Public Protection through consistent enforcement. Increasing inspector pay will help ensure that the Division can recruit and retain highly qualified staff, continue to perform thorough inspections in a timely manner, and continue our commitment to not only keeping the public safe, but to help Idaho's industry to complete construction projects quickly and safely

What is the anticipated measured outcome if this request is funded?

Our exit interviews indicate that the primary reason for departure was pay, followed by workload. If this request is funded, the Division anticipates a reduced turnover and improved retention with the inspectors. Retaining highly qualified staff allows the Division to continue performing inspections quickly while maintaining our commitment to public safety and not hindering the construction industry's contribution to Idaho's economy.

Russell Barron, Division Administrator Division of Occupational and Professional Licenses

Dear Russell:

This letter is in response to your FY 2026 Budget request. Your initial request was received August 16, 2024 and listed the following requested item(s) for your FY 2026 budget:

1. Funding to support equity adjustments of the Building Safety Inspector / Advisor classifications

After review of your request, DHR concurs with the following:

1. Compensation requested for equity adjustments of the Building Safety Inspector / Advisor classification

This letter attests that the Division of Occupational and Professional Licenses request is in alignment with Division of Human Resources (DHR) policies. Please include this letter with your final budget submission to the Division of Financial Management (DFM).

If you have any questions or concerns about your requests, please do not hesitate to contact me at <u>jessica.garrison@dhr.idaho.gov</u> or (208) 819-2193.

Sincerely,

Jessica Garrison

Human Resource Bureau Chief, Operations

Your request #563 for Computer Equipment Replacement and Conference Room Equipment has been **Reviewed & Recommended** by ITS.

ITS Comments:

This request undervalues the cost of laptops and may not have budgeted enough. At the same time the estimate for routers, switches, and AP is slightly higher than the ITS recommendation. Please click <u>here</u> to update your request and it will be sent back to ITS for approval.

Thank you for your submission.

AGENCY NOTES:						

Part I – Agency Profile

Agency Overview

A major state government reorganization in 1974 resulted in the creation of the Department of Self-Governing Agencies, which incorporates professional and occupational licensing boards. In the 2020 Idaho Legislative Session, HB 318 was signed into law codifying two substantial changes:

- Creation of a new Division of Occupational and Professional Licenses from the former Bureau of Occupational Licensing.
- Providing the Governor authority to reorganize programs and boards within the Department of Self-Governing Agencies as needed to create an orderly arrangement in the administration of government.

Pursuant to title 67-2601(2)(h), Idaho Code, the Division of Occupational and Professional Licenses exists within the Department of Self-Governing Agencies. On June 3, 2020, Governor Little issued Executive Order 2020-10 reorganizing 11 agencies into one. The 48 Boards and Commissions were organized into the following three bureaus, and the fourth bureau contains administrative functions that are common across the other three bureaus that have been consolidated for efficiencies and consistency:

- 1. Building, Construction, and Real Estate;
- 2. Occupational Licenses;
- 3. Health Professions; and
- 4. Administration

Executive Order 2020-10 tasked the Division administrator to establish a plan to coordinate the move of boards assigned to DOPL to a central office location so that Idahoans may access a one-stop shop for state licenses. In addition, Executive Order 2020-10 tasked the Division administrator to establish a plan to seek efficiencies from the combined organization including, but not limited to, the consolidation of information technology systems across boards where practicable. In the 2021 Idaho Legislative Session, the restructuring of 11 agencies encompassing 48 boards and commissions into DOPL was enshrined into Idaho Code with the signature of three regulatory framework bills:

- SB 1024 Vesting the division hiring authority in the Division administrator
- SB 1026 Changing the statute references of previous self-governing agencies to their new name, the Division of Occupational and Professional Licenses
- SB 1056 Detailing the duties of the Division administrator and transitioning all boards and commissions to the 'Occupational Licenses Fund'

In the 2022 Idaho Legislative Session, the legislature consolidated the Architects and Landscape Architects professions into one board through SB 1232 and created the new Board of Naturopathic Health Care to regulate and license naturopathic doctors in SB 1330a. In the 2024 Idaho Legislative Session, the legislature consolidated the Idaho Board of Nursing and the Idaho Midwifery Board into one board through HB 437 and consolidated the four (4) advisory boards under the Board of Medicine into one Allied Health Board through HB 436. The four (4) boards that now name up the Allied Health Board are, Respiratory Therapy Licensure Board, Naturopathic Medical Board, Board of Athletic Trainers, and the Dietetic Licensure Board. The Division serves 45 boards and commissions, 3 major safety programs and 8 advisory committees with a leadership staff that consists of the Division administrator, and five bureau chiefs. The Division has reorganized the entire structure to allow for efficient service to regulatory Boards, licensees, applicants, and the public. The Division is subject to economic changes, population trends, and other factors that directly affect the number of new applicants, permits, plan reviews, the number of licenses renewed annually, and the number of complaints. These, in turn, impact each board's revenues and expenses.

The Division's operations depend almost exclusively on dedicated funds generated from fees for applications, original licenses/registrations, renewals, permits, plan reviews, examinations, and disciplinary fines. The Damage Prevention Program generates fees based on One-Call activity, is awarded federal funds through the U.S. Department of Transportation and assesses penalties for the damage of underground utilities. The Industrial Safety and Logging Safety programs bill the Idaho Industrial Commission for the authorized appropriation associated with the operation of these programs. In addition, federal funding is received from the U.S. Department of Housing and Urban Development (HUD) which is utilized to help defray the costs of the Division serving as the State Administrative Agency for the HUD Manufactured Housing Program.

Core Functions/Idaho Code

The Division of Occupational and Professional Licenses is a self-governing agency pursuant to Idaho Code § 67-2601(2)(h). The Division umbrella provides the administrative, fiscal, legal, and investigative services for each of the forty-five boards and commissions. While each profession, occupation, and trade is different, all Boards have the same charge: consumer protection. They do this by ensuring that those entering the practice meet minimum standards of competency before issuing a license and responding to complaints from the public. Each Board operates independently under its own laws and rules and operates in alignment with the Division structure and operations. This arrangement allows Boards to maintain an office, to have staff, and to provide services to the public and licensees at a greatly reduced cost to applicants and licensees.

As of July 1, 2024, the following boards and commissions make up three bureaus within the Division:

- 1. Board of Accountancy
- 2. Idaho State Board of Acupuncture
- 3. Board of Architects and Landscape Architects
- 4. Athletic Commission
