MEMORANDUM

TO: Agency Fiscal Officers

FROM: David Fulkerson, Deputy Administrator/State Financial Officer
Division of Financial Management

Pam Menjivar, Bureau Chief
Division of Statewide Accounting
State Controller’s Office

SUBJECT: FY22 YEAR-END CLOSING OF STARS (subject to change due to transition to LUMA)

The Division of Financial Management (DFM) and the State Controller’s Office (SCO) have worked together to develop the following fiscal year-end closing schedule. Between now and mid-July, we will be closing the current fiscal year and preparing for FY22, which requires a series of “fiscal year-end closing” activities. State agencies, the State Controller’s Office, the Division of Purchasing, and the Division of Financial Management are all involved in the closing process.

The fiscal year-end (FYE) schedule outlines certain activities and deadlines related to the following:

- purchase requisitions
- organization, program, and budget unit structures
- grant and project purges
- encumbrances
- appropriations

Please be reviewing per FYE Planning Emails:

- FAS hold file
- Interagency billings
- Outstanding warrants
- Financial email notifications
**P-Card Application Instructions**

The P-Card liability accounts (GL 2105) **must** be at ZERO when fiscal year 2022 closes. Since STARS is a cash basis accounting system, the P-Card liability should not cross over fiscal years. While P-Card liability accounts should be reconciled on a monthly basis, having them reconciled and cleared at fiscal year-end is critical. With the fiscal year-end approaching, please identify and record any adjustments or corrections as soon as possible. Once your liability accounts are reconciled, then the processing at year-end should clear these accounts. The general fiscal year-end instructions are as follows:

- Process all outstanding “Posted Pending” transactions by July 7.
- By July 8, process your payment to Bank of America for the June expenditures with a **June effective date**.
- DFM may ask you to submit copies of your year-end P-Card liability account reconciliation. Please be prepared to provide them with this information.
- The above instructions apply only to agencies currently using the P-Card Accounting Application.

If you have questions on how to reconcile the P-Card liability general ledger account (2105), contact the Accounting Service Desk by phone at 334-3100 option 3 or by email at servicedesk@sco.idaho.gov.

ENCUMBRANCES & EXECUTIVE CARRY FORWARD

- Encumbrances are governed by Idaho Code 67-3521(2) which contains the following requirements.
  - Encumbrances beyond appropriated spending authority are not allowed.
  - Shall be reported as reductions against appropriations in anticipation of expenditure.
  - Shall be made only for a legally contracted obligation or for the accrued cost of a specific product or service due and payable prior to or as of the end of the current fiscal year or for the term of the contract obligation.
  - Shall not be used as means of reserving a portion of the appropriation of one fiscal year to be used in combination with the appropriation of the following year.
  - Executive Carry Forward requests shall be accompanied by proper identification of the accrued cost which must be adequately covered by appropriated funds from the current fiscal year.
  - Executive Carry Forward is valid for one year.
  - Requests for Executive Carry Forward require approval by the Division of Financial Management (DFM).
  - All purchase requisitions must be submitted to the Division of Purchasing by the division’s fiscal year-end cutoff date for Executive Carry Forward to be requested.
- Executive Carry Forward shall be for ordinary and necessary expenditures of the agency. These consist of expenditures necessary for the ongoing maintenance of operations that are imminent and cannot be postponed into the subsequent fiscal year. Unusual or extraordinary purchases will require additional documentation for DFM review as noted below.
- Executive Carry Forward of salary and benefit obligations will **not** be approved.
- The agency must have available current year appropriation that meets or exceeds the amount of the Executive Carry Forward request.
- Executive Carry Forward will be considered a reservation of cash to be carried over to the subsequent fiscal year to pay the obligation when all conditions have been met.
- Executive Carry Forward should be tied to a specific vendor.
- Executive Carry Forward valid for one year. Should the Executive Carry Forward not be liquidated in that time frame, an agency must provide justification for extension including detailing what efforts were made to liquidate the Executive Carry Forward and the impact should it not be extended.
• Agencies should communicate with DFM when ordering items or contracting for services at the end of the fiscal year to ensure purchases are appropriate and Executive Carry Forward requests meet DFM criteria.

General Fund Executive Carry Forward:

• If, at fiscal year-end, the Division of Financial Management and the State Controller’s Office agree there is insufficient cash to meet obligations being carried over to the next fiscal year, certain Executive Carry Forward requests will be disapproved and returned until a balance between receipts, expenditures, and cash is achieved.
Non-General Fund Executive Carry Forward:

- Non-General Fund Executive Carry Forward requests must be accompanied by a current B-12 Analysis of Funds (see Budget Development Manual) reflecting prior fiscal year, current fiscal year-to-date actuals, and subsequent estimated fiscal year receipts, expenditures, and cash balances.
- All revenue projections are to be based on the existing fee structure. Only changes to fees reflected in current law will be considered.
- Non-General Fund Executive Carry Forward requests will not be approved if there is insufficient cash in the fund at the time of the Division of Financial Management’s review. Should cash balances fall below that needed to liquidate the executive carry forward before the end of the fiscal year, DFM will reduce the executive carry forward to coincide with the available cash.
- Expenditures that are reimbursable from grant sources must identify the fund source and time frame for reimbursement of the expenditure to be approved for executive carry forward.

Guidelines for Executive Carry Forward Tied to Contracts

- Executive Carry Forward is allowable if the contract was originally scheduled to be completed prior to the end of the fiscal year but was not and had to be extended.
- Executive Carry Forward is allowable if the contract is for goods and/or services that would have been delivered during the current fiscal year except for delivery difficulties, unavailability of goods or services, or other reasons beyond the control of the state agency.
- Executive Carry Forward may be requested if the contract is required to conform to a time period different from the state fiscal year, and it is impossible or impractical to ascertain the amount of goods or services delivered or performed prior to the end of the fiscal year.
- Executive Carry Forward beyond amounts due and payable in the current fiscal year will not be approved for contracts or projects for which ongoing spending authority has been appropriated.
- Executive Carry Forward in multiple years will not be approved for any one contract.

Agency Instructions and Timeline:

- For instructions on entering, adjusting and canceling encumbrances, please consult the Encumbrance chapter of the STARS manual.
- The Division of Purchasing has determined that April 8, 2022, will be the last day for submitting purchase requisitions. Idaho Code, 67-3521(6), states “When purchase requisitions are submitted by agencies prior to the state purchasing agent's fiscal year-end cutoff date, but not processed either due to workload or bid requirements, agencies may submit a request for executive carry forward to the administrator of the division of financial management.” The Division of Purchasing will send letters to agencies notifying them of purchase requisitions that will not be processed and the reasons why they will not be processed. Copies of these letters and the purchase requisitions(s) must be attached to the agency’s request for approval of executive carry forward and submitted to the Division of Financial Management by June 30, 2022.
- Encumbrances not being requested for executive carry forward must be cancelled. Use information on the May month-end encumbrance reports (DAFR8070 or DAFR6840) to remove or reduce any obsolete outstanding encumbrances balances prior to June 30.
Outstanding encumbrances, which are not to be retained, should be cancelled, or reduced to $0.00. Agencies should use transaction code 220 R to reduce or 225 to cancel an encumbrance.

- Agencies using encumbrances throughout the fiscal year as an accounting tool must cancel those not meeting the requirements of Idaho Code 67-3521(2) prior to June 30.
- Current year-end encumbrances may be entered into STARS through June 30, 2022. Note that all encumbrances requested for executive carry forward must be entered into STARS prior to submission to DFM for approval. This includes purchase requisitions received by the Division of Purchasing by the April 8 cutoff but not processed for various reasons identified in a letter from the Division of Purchasing.
  - The STARS Document Number, Invitation to Bid (ITB) number, or Request for Proposal (RFP) number should be entered in the MPC field.
- Agency executive carry forward requests are due to the appropriate analyst at DFM by June 30, 2022. Please provide proper documentation as noted in the section below.
- Current outstanding encumbrances can be paid against, cancelled, liquidated, or adjusted until June 30. Any encumbrances that are not approved by DFM for executive carry forward will be cancelled or reduced by SCO.
- DFM will act upon executive carry forward requests by July 8, 2022. Final discretion as to the approval/disapproval of any executive carry forward lies solely with the Administrator of DFM.

**Documentation Required for DFM Review of Executive Carry Forward:**

- Submit to DFM a memo outlining the details of requested executive carry forward including the date the liability was incurred and the estimated date it will be liquidated, as well as a complete explanation of why the executive carry forward is necessary and the possible impact of not retaining it.
- Documentation must be available for review by DFM analysts to support any executive carry forward. This can be, but may not be limited to, purchase orders, invoices, signed vendor contracts, or authorization letters from the Division of Purchasing in the Department of Administration. Agency and vendor representatives, if applicable, must authorize all documentation prior to the end of the state fiscal year.
- Unusual and extraordinary purchases must be submitted with the answers to the following questions:
  - Was this item previously requested via the budget process?
  - If so, what was the result of that request?
  - Did a critical piece of equipment fail unexpectedly?
  - Was this item planned for replacement in future years?
  - Does the encumbrance for this item obligate the agency to ongoing costs not addressed in the regular appropriation?
  - What are the consequences of not funding this item?
